

## Onsurity Technologies Celebrates its first anniversary

---

**Karnataka, Bengaluru, Feb 2, 2021 ([IssueWire.com](https://www.issuewire.com))** - On February 5 2021, Bengaluru-based HealthTech start-up [Onsurity Technologies](#) is celebrating its first anniversary. The company was founded on 05/02/20 with the aim of addressing the lack of employee healthcare benefits for MSMEs and start-ups.

The company was founded by [Yogesh Agarwal](#) and [Kulin Shah](#), along with a handful of employees. Since then, Onsurity has grown to over 70 employees, from all over

India. In the last year, Onsurity has managed to redefine the term “[employee healthcare benefits](#)” with its flexible and affordable employee healthcare plans.

Onsurity Technologies went from piloting with its first customer in April, to onboarding **50 customers by July**. Since then, Onsurity Technologies has only grown at a rapid pace. Today, the company has over **400 customers onboarded**, across a range of industries.

Creating affordable employee healthcare for SMEs and start-ups has made Onsurity Technologies a popular name in the startup scene. The company has received two major awards – [YourStory Tech 30 Startup of 2020](#) and [India 500 Start-ups Awards 2020](#) – for its work its employee wellness programs.

Now, the company celebrates its first anniversary with over **40,000 members having access to Onsurity’s healthcare membership**. On this occasion, Onsurity Technologies would like to thank all the businesses that trusted Onsurity’s employee healthcare benefits. Their faith and willingness to partner with Onsurity have helped create a healthier and happier India.

Onsurity Technologies also wants to extend its thanks to all the businesses who partnered with the company to provide health benefits for **start-ups and MSMEs**. The company also wants to show its gratitude to all those who shared, talked and wrote about Onsurity in the public domain, helping the country have a much-needed discussion about the role of employee healthcare benefits.

As the 2021 Union Budget showed, there is an urgent need for reform of our healthcare system. In just a year, Onsurity has managed to make healthcare benefits for employees a key part of that discussion. The company hopes to increase the size and scale of that, by adding more MSMEs and start-ups as members over the coming years.

## About Onsurity

**Onsurity Technologies** provides digital-first employee healthcare benefits through a revolutionary subscription system. Employers can purchase a flexible, adaptable and economical plan for their team, which can be managed digitally. Employees can access healthcare benefits like doctor teleconsultations, discounted health check-ups and medicine delivery, fitness tracking and group health insurance through Onsurity’s insurance partner.
