

Plumbing Contractor Tornado Plumbing & Drains Launches Social Media Initiative with Facebook Page and Twitter Presence.

Ontario, Toronto, Feb 9, 2021 ([IssueWire.com](http://www.IssueWire.com)) -

- The plumbing problems are quite common in Toronto and its vicinity if you have old or faulty pipes in your home. You need a trusted and proven expertise to repair, maintain, or replace your plumbing system. The contractor with a valuable track record of excellent services provided for years is the most essential requirement of all the customers. The top-notch and high-quality plumbing services are being supplied by Tornado Plumbing & Drain on a regular basis in the area nowadays.

Let us introduce the best leading plumbing company ever, Tornado Plumbing & Drains, which is launching its own fan page on Facebook. The company considers this step to be the most basic and important element in its social media promotion strategy that is developing faster and faster day by day.

The title of the page is 'Tornado Plumbing & Drains', and it has been designed for homeowners in Toronto and the greater area who have already appreciated Tornado Plumbing & Drains's efficiency and quality. They have already become the fans of the company and are ready to invite more users to get interested in the plumbing services of the brand-new efficiency, the hottest friendliness, and openness. The page displays the most essential information about the company and its work, the range of services, images, and videos of the products. It will work as a basic platform for the Tornado Company to inform about various events and promotions provided by it all year-round. You will also be able to see the Company's projects and their latest completion.

The Company's President Sergiy Marynychuk admits that social media has recently changed the methods of Tornado Plumbing & Drains's communication with its clients. The most fascinating advantage of such social networks as Twitter or Facebook is that they allow for creating a continuous dialogue with homeowners online. Their immediate interest and response are the most precious value to the firm that provides plumbing services at the local and regional levels. She argues, "Using social media is not the way for us just to advertise our products and services. It is rather the way for homeowners and our experts to understand the plumbing procedures and each other's approaches better."

The Tornado Company's attempt to reach Facebook serves as the next stage for the long-term gradual social media perspective and strategy. The first stage has already been implemented with participation in YouTube, Twitter, and Instagram. The Company's Twitter account serves as a valuable means of communication for homeowners which will help them solve their plumbing issues.

The homeowners had their property in Toronto and the nearby area can become fans and supporters of the Facebook page belonging to Tornado Plumbing & Drains by visiting the site <https://www.facebook.com/TornadoPlumbingCom> and clicking the knob LIKE. The Tornado contractor is also available for following on Twitter at <https://twitter.com/TornadoPlumbing>.
