

QSS Technosoft Announces its New Office in Mohali, Chandigarh India

Punjab, Mohali, Feb 11, 2021 ([Issuewire.com](https://www.issuewire.com)) - QSS Technosoft, the leading software development company headquartered in Noida India, is announcing the opening of its new office in Mohali, Chandigarh India. With this, the company further strengthens its identity by hiring new talents from around the country thus serving its global clients the best software development & consulting services at the most genuine rates.

This expansion opens up access to a very large pool of the finest software development talent in the region that the company can use to fuel the continued growth of QSS Technosoft. This will not only help to get more and more business but further brings a reliability factor among their US clients. With this expansion, the company is seeking to deliver quality IT services at a time when there is a rapidly increasing demand for diverse software development services for varied business domains.

"It gives me immense pleasure to announce that we have got our new branch in Chandigarh now. With our legal presence in the US as QSS Technosoft Inc.(announced last year), we are moving in the direction of having many more new branches across India and the US." said **Sanjay Pandey, Co-founder at QSS Technosoft**.

"Our new office in Chandigarh is conveniently located with fully-fledged infra and other amenities. We look forward to hiring more teams of knowledgeable experts and other staff so as to make it a great place to live and work." he included.

"The decision is a logical step in our business growth and this is going to open new and bigger

opportunities for us. "We are on a constant mission to make best & cost-effective software development services accessible to global clients." he further added.
