

SOBEREYE's Impairment Testing Platform is Now Part of the DuPont Sustainable Solutions SafetyTech.AI Platform

California, Menlo Park, Feb 16, 2021 (IssueWire.com) - **SOBEREYE**, which brings new technology to workplace testing for impairment from fatigue, drugs, alcohol and other causes, with real-time testing and results, today announced that the company has joined the *DuPont Sustainable Solutions (DSS) SafetyTech.AI* platform.

"Safetytech.AI is the world's largest network of technology-enabled solution providers for workplace safety and operational risk management," said Antonio Visconti, the founder, and CEO of **SOBEREYE**. "Joining this platform connects our company to leading industrial companies who are looking to invest in new technologies to better manage risk, improve the safety, productivity and sustainability of their platforms, as well as provide cutting-edge training experiences to up-skill their employees."

The *SafetyTech.AI* platform was created by DSS, a leading global provider of operations management consulting services, which is building the world's largest network of safety technology partners.

DSS is an independent consulting firm focused on helping clients save lives and improve the operational workforce. The firm's objective is to build the largest network of vendors who provide safety-related emerging technologies within the scope of Wearables, AI, Advanced Analytics, and IOTs. Through this network, DSS connects their clients to a possible technology partner to help them address issues on workplace safety.

Successfully implemented in mining, construction, transportation and industrial companies around the world, **SOBEREYE's** impairment monitoring platform saves lives by preventing workplace accidents. It's a non-invasive safety tool, easy to use, with rapid results. It provides safety management officers with an objective measurement tool that helps their employees do the right thing without force or coercion from management.

Workplace operators check themselves with **SOBEREYE's** mobile device. The **SOBEREYE** platform recognizes that workplace safety is a shared interest and that successful safety initiatives require collaboration. With **SOBEREYE**, users learn about their impairment risk every time they test and adjust behaviors to stay safe on the job.

About DuPont Sustainable Solutions:

DuPont Sustainable Solutions (DSS) is a leading provider of operations management consulting services that enable organizations to protect their employees and assets, realize operational efficiencies, innovate more rapidly and build workforce capability. By leveraging its DuPont heritage, deep industry and business process expertise, and diverse team of expert consultants, DSS helps clients turn operations management into a competitive advantage. Additional information is available at <http://bit.ly/about-dss>.

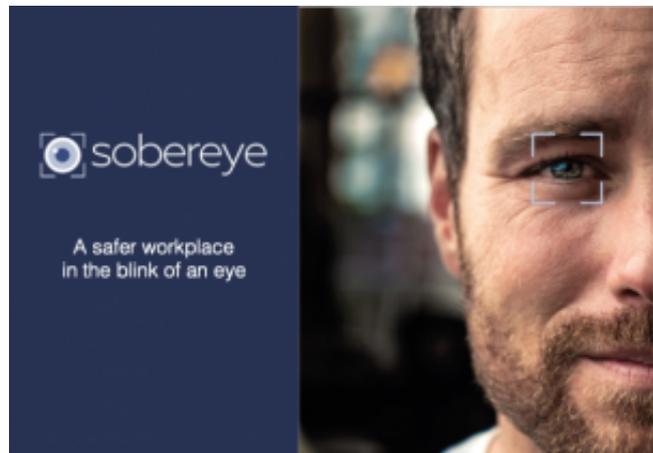

About SOBEREYE:

Launched in Silicon Valley in 2015, SOBEREYE helps companies prevent workplace accidents by measuring impairment risk on the job when it matters most. Around 90 percent of workplace accident reports indicate human error as contributing cause. However, human error is a consequence, not a cause. Fatigue, alcohol, and drugs are among the major contributors to accidents associated with human error. SOBEREYE's one-minute, self-administered test can save lives in the workplace. Additional information is available at <http://www.SOBER-EYE.com>.
