

WEBROOT LOGIN How to login to your Webroot account?

Webroot secureanywhere sign in

Georgia, Atlanta, Feb 24, 2021 (Issuewire.com) -

Webroot is a modest antivirus program, and it is also the fastest security partner that doesn't slow your PC. Signing into your Webroot account is easy, and anyone with a valid user account can log in to their respective Webroot accounts. To start with the process, follow the instructions given below.

- 1. Open Google Chrome, Safari, or any other internet browser on your PC, and visit the Webroot login portal.
- 2. Now, on the login page, you'll see two panels for 'Log In' and Create 'Account.'
- 3. If you don't have a Webroot account, click on the 'Create Account' panel, otherwise follow the instructions and continue to the sign-in page.
- 4. On the 'Log In' panel, enter your registered email address along with your password and finally click on the 'Log In' button.
