and complete eye health management. Dr. Lascaibar provides eyewear and eye treatment prescriptions, as well as LASIK and refractive eye surgery

Dr. Lascaibar is a talented optometrist serving as the owner & operator of Manatee Optometry in Bradenton, Florida. He provides a full range of eye health services to people of all ages, and will expertly examine and treat individuals whether they are infants or older adults.

A 1988 graduate of SUNY College of Optometry, Dr. Lascaibar has over 30 years of experience in his field. He knows that comprehensive eye care goes beyond a prescription for glasses, contact lenses, or ocular medications. He takes the time to get to know patients, their eye cares The practice offers a full range of eye health services to clients of all ages: routine eye exams and vision tests, eye disease diagnosis and management, immediate attention for eye emergencies, histories, and their vision needs. co-management and cataract surgery co-management. He can diagnose, treat and/or manage ocular diseases such as glaucoma, diabetic retinopathy, macular degeneration, cataracts, and dry eyes, as well as can diagnose, treat and/or manage pink/red eyes, ocular foreign body removal, and other eye conditions or emergencies.

Optometry is a health care profession that involves examining the eyes and applicable visual systems for defects or abnormalities, as well as diagnosing and managing eye disease. Optometrists are healthcare professionals who provide primary eye care through comprehensive eye examinations to detect and treat various visual abnormalities and eye diseases. Being a regulated profession, an optometrist's scope of practice may differ depending on the location. Thus, disorders or diseases detected outside the treatment scope of optometry (i.e. those requiring certain surgical interventions) are referred out to relevant medical professionals for proper care, more commonly to ophthalmologists who are physicians that specialize in the tertiary medical and surgical care of the eye. Optometrists typically work closely together with other eye care professionals, such as ophthalmologists and opticians, to deliver quality and efficient eye care to the general public.

Happily married, Dr. Lascaibar and his wife are both fluent in English and Spanish.
