

Albert L. Granger, DDS, a Dentist with Premier Endodontics of Long Island

Get to know Dentist Dr. Albert L. Granger, who serves patients in Garden City, New York.

New York, New York City, Mar 25, 2021 ([Issuewire.com](https://www.issuewire.com)) - Dr. Granger is an established dentist currently serving his patients at Premier Endodontics of Long Island in Garden City, New York. His goal is to achieve the best possible outcome while ensuring the highest level of comfort and convenience for each patient.

In addition to being the founding partner of Premier Endodontics of Long Island, he is the Director of Endodontics at NYC Health + Hospitals / Harlem (2016 - present). He is also a former Assistant Clinical Professor of Endodontics at Columbia University College of Dental Medicine (1993 - 2010).

To begin his successful career, Dr. Granger obtained his Doctor of Dental Surgery degree from Howard University College of Dentistry in 1987 and completed the postgraduate Endodontic Program at Columbia University in 1993. From 1994 to 2005, he served as a City Councilman for the City of Glen Cove and currently serves on the Board of Trustees for Elizabethtown College and the North Well Hospital System. In 2007, he completed the Implant Maxi Course at the Medical College of Georgia.

Very involved in the community and the dental society, he is a Fellow of the Academy of General Dentistry and a Fellow of the American College of Dentists. He is also an active member of the American Dental Association, the New York State and Nassau County Dental Societies, the American Academy of

Implant Dentistry, the National Dental Association, and the American Association of Endodontists.

For his commitment to excellence in endodontics, Dr. Granger has been recognized as a New York Top Dentist and has been named one of America's Top Doctors. He attributes his success to his years of experience and also being able to provide compassionate care to his patients every day.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy.
