

Brian D. Dedinsky, MD, a Family Physician with Dedinsky Executive Primary Care

Get to know Family Physician Dr. Brian D. Dedinsky, who serves patients in Phoenix, Arizona.

New York, New York City, Mar 2, 2021 ([Issuewire.com](https://www.issuewire.com)) - Prioritizing the health of all of his patients, Dr. Dedinsky is an involved, well-informed, and caring family physician. He opened Dedinsky Executive Primary Care in Phoenix, Arizona in 1993.

“My mission is to provide the most comprehensive medical care in the Phoenix, AZ area at an affordable

price. I believe in individualized and thorough medical care. My program offers unparalleled accessibility, appointments that are never hurried, and an annual physical exam that is not billed to your insurance” expressed the doctor.

Taking a new approach, Dr. Dedinsky focuses his practice on individual personalized preventative and wellness care. By limiting the number of patients he serves, he is more accessible and better able to meet their immediate and long-term healthcare needs. He focuses on preventative health and early detection, so when action is taken to monitor the top five health risk factors such as high blood pressure or cholesterol, obesity, stress, smoking, and lack of exercise, a lifetime of good health is promoted.

As for his academic appointment, he serves as an Assistant Clinical Professor within the Department of Family and Community Medicine at Creighton University School of Medicine, Phoenix Campus.

The doctor’s acclaimed career in medicine began after he earned his medical degree from Creighton University School of Medicine in 1990. Upon graduation, he went on to serve his residency in family medicine at St. Joseph’s Hospital and Medical Center.

With a 25+ year commitment to providing personalized healthcare, Dr. Dedinsky is board-certified in family medicine by the American Board of Family Medicine (ABFM). The ABFM is a non-profit, independent medical association of American physicians who practice in family medicine and its sub-specialties.

Family medicine is a medical specialty devoted to comprehensive health care for people of all ages. The specialist is called a family physician or family doctor. A family physician is often the first person a patient sees when seeking healthcare services. They examine and treat patients with a wide range of conditions and refer those with serious ailments to a specialist or appropriate facility.

Named one of Phoenix Magazine’s annual Top Doctors 7 times, Dr. Dedinsky was awarded the Mercy Physicians Award, the Patients’ Choice Award (2008, 2009, 2010, 2011, 2012, 2015), Compassionate Doctor Recognition (2011, 2012, 2014, 2015), the Patients’ Choice 5th Anniversary Award (2012), and the On-Time Doctor Award (2015).
