

Car Audio Specialists, Window Tint, Wraps, Security Systems in Santa Monica

California, Santa Monica, Mar 16, 2021 ([IssueWire.com](http://www.IssueWire.com)) - Santa Monica Car Sound (<http://santamonicacarsound.com>) makes finding the right car specialist for your vehicle in Santa Monica easy. You want someone to provide custom services to help you in your everyday commute. Here are some great services that Santa Monica Car Sound offers.

Santa Monica Car Sound has various audio systems available for purchase. If you're looking for Bluetooth and HD radio, the Kenwood DDX9907XR is perfect. Maybe you like to use apps while you're in your car to handle multiple tasks from a few office things or getting in contact with family and friends while on the go. If that's the case, you should get Pioneer AppRadio.

Add some bass to your favorite songs with JL W7AE. You should be able to get the best audio experience as you drive to your daily destinations. Santa Monica Car Sound has a large selection of car receivers with Apple car play and Android auto.

They are 3M authorized window film. They also do chrome delete, Blid spot, K40 radar detectors for no more speeding tickets, Dashcam and front & rear parking sensors.

If you're the type of person that likes to be low-key, it's a good idea to invest in some window tints to get more privacy. Here are a few other reasons:

- Energy savings can reduce energy costs
- Block out sun glare to make it easier to see while on the road
- Help protect you from harmful UV rays

Santa Monica Car Sound has the right tints for you to have a more luxurious or subtle look depending on how you want to enjoy your vehicle. Some sleek-looking wraps will add a nice flair to your car that'll give it an edge without breaking the bank.

Car theft is still a big issue when it comes to having a car. A Viper SmartStart can help you unlock, lock, and start your vehicle even from your living room window while you keep an eye on it. This is perfect to help you warm-up your vehicle on chilly days before heading to work or school.

Not only will you feel more secure, but it'll be easier to maintain your vehicle. In case your car does get stolen, you can put a tracking system to let you know the location of it. This is also good to keep tabs on a teen who may have taken your car for a joyride.

We're located at 1915 Santa Monica Blvd Front Unit, Santa Monica, CA, 90404
