

## Celebrations and Inauguration of New Cowshed

**Maharashtra, Mumbai, Mar 11, 2021 ([Issuewire.com](https://www.issuewire.com))** - I was planning to open a Cowshed for a long time and finally, it's here. The name is Sherry [Rakesh Kothari](#) of the Cowshed which is in Khambhaliya village near Dwarka, Gujrat. The only motive of this is that no animal should be without shelter and should be taken care of. We could make this in association with [Sherry and Diya Foundation](#).

It's not about the numbers and quantity, the way this place has created a space for service, dedication, devotion and creation can amaze anyone. The basic thought of caring for and protecting Indian cows

from many social and economical challenges make this place a perfect example of sheer magnanimity. This place is a case study of one man's humble duty towards an animal, which is also sacred for Hindus.
