

Dallas Broadway, MD, Vascular & Interventional Radiologist with Modern Vascular

Get to know Vascular & Interventional Radiologist Dr. Dallas Broadway, who serves patients in San Antonio, Texas.

New York, New York City, Mar 12, 2021 ([Issuewire.com](https://www.issuewire.com)) - A specialist in many vascular and interventional radiology procedures, Dr. Broadway specializes in minimally invasive, targeted treatments for Peripheral Artery Disease (PAD). He is the managing physician at Modern Vascular of San Antonio's Hueber Rd. location.

The Modern Vascular clinic is equipped with the latest technology and tools to perform revascularization and life-saving procedures. If indicated, Dr. Broadway and his staff will use state-of-the-art technology to restore blood flow to PAD-affected lower extremities, down to the toe, restoring circulation, and saving limbs when others can't. They have treated thousands of patients with PAD, saving countless lower legs from amputation in the Greater San Antonio area.

A graduate of Ross University School of Medicine, Dr. Broadway went on to further his training at SUNY Health Science Center at Brooklyn. He performed his residencies in internal medicine and radiology, and his fellowship in vascular and interventional radiology.

Interventional radiology is a medical subspecialty that performs various minimally-invasive procedures using medical imaging guidance, such as x-ray fluoroscopy, computed tomography, magnetic resonance imaging, or ultrasound. Vascular and interventional radiologists focus on diseases of the blood vessels and lymphatic system, but also treat other conditions, such as cancer and infertility. They perform minimally invasive treatments that have less risk, pain, and recovery time compared to open surgery.
