

## **Dr. Eesa Al-Bastaki joins ILYAS Mobility startup Board of Directors**

**United Arab Emirates, Dubai, Mar 30, 2021 ([IssueWire.com](https://www.issuewire.com))** - Dr. Eesa will further strengthen ILYAS TECH efforts in expanding and developing ground-breaking intrauterine solutions for better mobility for Asian markets. Dr. Eesa Al-Bastaki is the President of the University of Dubai and the former CEO of the ICT Fund, where he was instrumental in establishing an eco-system in the UAE's ICT sector by facilitating entrepreneurship and financing R&D projects. He has held several senior positions throughout his distinguished career, including Chairman of the Energy Section at the UAE University (UAEU) and Chairman of the Technology Section at the UAEU's Technology & Energy Research Center. Dr. Bastaki is the chairman of DSO and RIT-Dubai, as well as the AI-AI Municipality's IT Center. Dr. Bastaki is a UAE national scholar who received his B.Sc., M.Sc., and Ph.D. in Electrical Engineering from the University of California, San Diego, and his M.Sc. in Electrical Engineering from the University of California, Irvine. Multiple Access Communications, Coding, and Synchronization are some of his research interests.

We are thrilled to have Dr. Eesa join our Board of directors to provide guidance and leadership to our growing company ", said **Ammar Bin Rasheed, CEO of ILYAS**. "Having his experience and background as a leading tech executive is a great privilege for me personally, and a huge boost for the company and our board of directors.

Another undisclosed firm will join the company as part of the board of advisors. The company has been in the IT industry for the past 20 years and has a solid background in technology (AI, IOT, ML/DL, AR/AR and cloud computing), having mentored multiple startups in the United States and India.

**ILYAS Traffic technologies provide a combination of state-of-the-art technology and logic to create optimal traffic management solutions.**

The company is gradually introducing several new and innovative technologies which are being combined into one system. Earlier this month, the company signed an MOU with an exclusive undisclosed manufacturer of their systems.

In addition, the company is developing and expects to achieve precise point posting (PPP) for its own fully integrated platform.

**About ILYAS TRAFFIC TECHNOLOGIES:** [ILYAS](#) is a private, Emirati transportation, IoT cybersecurity and defense company. It serves two business segments: B2G and B2B.
