

## Exclusive Offer for Used Heavy Equipment from Al-Bahar

The offer will be valid for all used machines purchase across its network covering UAE, Oman, Bahrain, Qatar, and Kuwait.

**United Arab Emirates, Sharjah, Mar 22, 2021 ([Issuewire.com](http://Issuewire.com))** - Al-Bahar, one of the leading dealers of Cat® machines in the Middle Eastern region, has announced an exciting deal on its certified used machines. The company has expressed its belief that the added benefits would reduce the hassles of ownership and would allow their customers to get more from their machines.

The deal offers all the certified used machines from Al-Bahar with a full-year warranty and a 2,000-hour Preventive Maintenance Kit. The PM Kit would contain genuine Cat parts of (oil, transmission, hydraulic, and fuel) filters, water separators, oil sample bottles, and easy-to-follow instructions you need for routine service work. This would allow the customer to change these components at regular intervals as recommended by Cat® and get the desired level of performance from the machine.

Moreover, with state-of-the-art infrastructure, Al-Bahar can offer you quality support whenever you need it.

The company has stated that the deals would be offered on their entire range of used equipment including [Cat® Motor Graders](#), [Backhoe Loaders](#), [Skid Steer Loaders](#), [Wheel Loaders](#), [Telehandlers](#), and more.

Used machines work ideally for scenarios where hour utilization won't justify the cost or features of new equipment. Get similar production out of your used back-up machine when it is working, but you're not paying for new machine features and technologies when it's idle. Used machines can be a much more affordable way to get what you need for a specific task. It is a smart choice for demo work or other applications where you want to avoid damage to new machines. You can build or expand your fleet even when you need to allocate funds to other areas of your operation.

The condition of the machine is always one of the biggest concerns among buyers. Addressing those concerns, Al-Bahar ensures that all the machines pass through stringent quality checks that include a 140-point inspection. Al-Bahar provides detailed usage and maintenance history of the machine so that the user knows how the machine has been used including the kind of repairs and other maintenance work that has been done on the machine. This would allow you, the customer, to make an informed decision and get the right machine for their needs.

Al-Bahar is known for its excellent product support and parts availability. So, if you are looking for unmatched support with your machine, you would just need to contact their support team and they would help you out in the best way possible.

The deal is available through its dealership branches across UAE, Oman, Bahrain, Qatar, and Kuwait. Interested customers are requested to [contact](#) the sales team at Al-Bahar for more details. For more information on the deals and the products, customers are requested to visit [www.albahar.com](http://www.albahar.com) or mail at [info@albahar.com](mailto:info@albahar.com)
