Globally the pet care market is an amalgamation of pet foods, pet accessories, pet health care, and pet grooming products. The report is segmented into major regions such as North America, South America, Europe, Asia Pacific, and the Middle East. The market is been highly driven by the dominant North American region which is then followed by Europe. Among these top-performing regions, Asia Pacific has shown promising growth in terms of the revenue generated from pet care products. The surge in the adaption of pet care products will let the Asia Pacific region be among the leading markets with expected revenue of nearly USD 25 Billion by 2025.

From the analysis carried out over the pet care market, pet foods are in the dominating position. Companies have been very much active in organic and herbal food that has gained pet owners' attention. The segment is followed by pet health care services, a combination of healthcare, accessories & grooming products. The growing need to control zoonotic diseases spread and advances in drug development for effective animal health will be a driving reason in the global animal healthcare industry.
