

HopeQure Launches Corporate Employee Mental Health Wellness Program

Uttar Pradesh, Noida, Mar 5, 2021 ([Issuewire.com](https://www.issuewire.com)) - HopeQure, an [online counselling](#) platform for mental health in India has launched an automated online corporate employee mental health wellness program. The exclusive Employee Assistance program helps the employees to adopt healthy work practices by offering a comprehensive solution to support them through their work-life challenges.

HopeQure helps in evaluating the impact on productivity due to mental health issues and provides an accessible and confidential platform for improving the mental wellness of corporate employees, according to a statement.

The Employee Assistance program caters to the specific needs of the employees and supports them for Prevention of Sexual Harassment (POSH), Shift-work Lifestyle Management, Healthy Maternity, Diet, Yoga, Meditation, Nutrition, post-retirement preparation, and other wellness services that help in improving their mental health and productivity.

Vivek Sagar, Founder & CEO, HopeQure, said, "We at HopeQure.com are determined to help organizations to become more efficient and productive by improving the mental health of their employees. Thus, we have designed a fully automated HIPAA compliant program that provides the

corporates with the best mental health support for their employees at an affordable cost.”

The Employee Assistance Program is a customizable program that can benefit different strata of industries from startups to well-established fortune 500 companies. Its duration varies upon the deliverables starting from 6 months to 12 months that also determines the cost of the program, the statement said.

With more than 500 psychologists from across India, HopeQure claims to emphasize a holistic approach for diagnosis, treatment, and mental health care of individuals.
