

Interview Of Pehli Mulaqaat's Creator Kamal Aggarwal

Uttar Pradesh, Ghaziabad, Mar 9, 2021 (IssueWire.com) - Q1. How's your talent journey so far from class singer to the global singer and TC Certified artist?

This was a great experience when I get my first contract I really feel like I'm the top of the world. At that time it was totally surprising for me and I feel so blessed to be part of TC so I get my first break.

Q2. How you and your family help you, anyone special who inspired you or helped you throughout your journey?

My family is my backbone, in this era where every parent wants their child to become a doctor, professor, and etc. my family support me in this field so passionately they always said choose any field we are there for your support, I highly inspired by my cousin brother who is a phenomenal dancer and working with a great name of Bollywood, he always directs me, he always induces me to do Smartwork rather than hard work by his direction I get some great mentors who teach me a lot.

Q3. Your opinion on the role of family and society in talent. What did you want to say to the artists who didn't get support or are not getting a chance due to society?

To be very honest in the maximum cases no one will support you in this field especially those who belong to the middle-class like me, you have to prove yourself to your family and society, in my starting days my family said music is just my hobby and I would not get anything even I'll leave this industry soon, but after winning some competition like TC's one they actually felt I am capable to do something in this so everyone in my side now.

Q4. Explain your journey to viewers from getting selected as MusicOnCore winner to Star Artist of TC. How far TC has supported you throughout your journey?

TC's support was amazing in my journey all I want to say if you are listening to me in PEHLI MULAQAAT it's all become true only through TalantonCore.

Q5. Your family reaction after the global release of the song as well as your first break.

If I go with family's reaction it was fantastic my relatives and neighbors call my parents to congratulate and binding appreciations of me and my song, my old friends start connecting with me once again and some unknown once also try to connect to congratulate me, all I want to say I'm soo blessed.

Q6. Special career advise for the upcoming singers and why should they join TalantonCore?

For all upcoming singers, you all are having your own taste of music keep that taste and show that to the world your true music as my mentor said " This is true you never be sung like Arijit Singh but this is also true Arijit Singh sang like you" Sorry for this but this was just an example I really respect the biggest start Arijit sir. And you should try to make your own music so that you have your own sample or product to show the world and most important ALWAYS PREPARE PLAN BE RATHER THAN MUSIC because in this field depression and anxiety hit you soo hard if you are lying only on music this would be your mistake maybe and maybe not because music is full of uncertainty.
