

iSumsoft Released an iOS System Repair Program to Fix All Common iOS Issues

iSumsoft iOS Refixer helps you quickly fix iPhone stuck on Apple logo without restoring and other iOS issue

Guangdong Sheng, Shenzhen, Mar 1, 2021 (Issuewire.com) - **iSumsoft iOS Refixer** is a powerful iOS system repair tool, which is designed to repair various iOS problems on iPhone/iPad/iPod Touch and get the iOS system back to normal.

As the iOS system recovery software, iSumsoft iOS Refixer is compatible with all iOS versions and devices, including the newest iOS 14 and iPhone 12. Users can make good use of this tool to fix the common issues: iPhone stuck in recovery mode, iPhone stuck at Apple logo, iPhone, black screen, white screen, iPhone boot loop, iPhone frozen, iPhone cannot restore, getting into iTunes errors and so on.

“As iOS devices are widely used, we develop this iOS repair software for users all over the world. There are two modes in the software: Standard Mode and Advanced Mode,” said JK Chen, the

developer manager of the iSumsoft program, “*There will not be any data loss after repairing the iPhone when you choose the Standard Mode. On the contrary, using Advanced Mode will erase all data in the iPhone. Therefore, users can choose the mode they preferred.*”

Fix All iPhone System Problems without Data Loss:

iSumsoft iOS Refixer can repair the iOS system problems without data loss. The problems it can repair have reached up to 50. Several typical issues like:

- **iPhone/iPad Screen Stuck Problems:** iPhone frozen screen, iPhone white screen, Blue screen of death, iPhone black screen, Connect to iTunes screen, iPhone recovery mode loop, etc.

- **iOS Mode Stuck Issues:** stuck on recovery mode, stuck on DFU mode, stuck on headphone mode, stuck on zoom mode, stuck on shuffle mode, stuck on restore mode, stuck on safe mode, stuck on mute mode, etc.

- **Other iOS device bugs:** iPhone stuck on Apple logo, iPhone screen frozen. iPhone won't turn on, iPhone is disabled, iPhone stuck on verifying update, iPhone won't charge, etc.

This software is free to [download](#) on all Windows computers. But for the users to repair the iOS devices, they need to pay \$19.95 for lifetime usage.

It is easy to repair iOS devices with this iOS system recovery software.

1. Select a repair mode on the main interface.
2. Connect the iOS device with system failure to the software.
3. Click the **Download** button to download the firmware package.
4. Click the **Repair** button to start repairing the iOS system.
