Cartridges. (Prices listed are for single item quantities.) For more quantities, contact us, or to place a special order, please get in touch. With this pricing gun, you can set the price of your item and simply hand-label the entire item so time-sensitive companies can click to order and get their products on-demand in at most a few days. There are also over 130 options for batch stamping to suit every use scenario. Simply choose your own preferred colours, set your own price point, and choose the plain white lettering you want so your fact-checking methods are as quick and easy as possible. The pen

calculators included are color-coded to the particular manufacturer so even if your item comes from a different company, you'll know instantly where to find the color that suits your price-marking needs. Batch-code pricing guns are ideal for retailers who need to price mark stock quickly, but can't afford to hand label them as easily.

Hand-labeling guns are invaluable to retailers, brands, and manufacturers to give general shoppers a simple and well-traveled-in method of quickly and easily doing something like price-checking a range. Buying your stock quickly and easily using one of these price guns can save you huge amounts of time and effort should you have to use similar processes at later dates.

These pricing guns are both rugged and easy-to-use and can be easily mounted on a table, shelf, or end of a conveyor belt to be used on the fly. When printing and marking your products, it's easy to see exactly what your bill is when using these pricing guns.

The simple-to-read colored lettering enhances accountancy and quick service, giving you an instant cost comparison for your bill at the touch of a button. Once the product information and mark-up have been completed, simply add the pens to the cart alongside the labels. Simple as that. Cart and label your order online or via our free CSR app on iOS, Android, Kindle, or iOs. If you're using the app on iOS, visit the price-checking equivalent app, select the quantity you need, select your preferred shipping method and choose your best-selling item to price-mark.

Once the price is set, select the check-out button, enter your billing details and print your cart and labels. You'll never have to worry about making mistakes again. For more detail and to own your cart and label app, please see the link at the bottom of this page. If you're using the app on Android, visit our app store page for more versions, like itsticklabels.co.uk. Mailing lists are one of the best ways to spice up your coming orders.
