

## Logistics Middle East award for Navigators Shipping Dubai

Break bulk highly commended operator

**United Arab Emirates, Dubai, Mar 25, 2021 ([IssueWire.com](http://www.IssueWire.com))** - The night was truly momentous for the team Navigators when they were recognized and highly commended as the breakbulk operator of the year by the ITP media group. In a recently held event in Dubai, the prestigious Logistics Middle East award citation was presented to Navigators Team. “We are delighted to be honored by the Logistics Middle East award as the highly commended breakbulk operator. Our aspirations and unrelenting efforts got paid, and we are proud to have a young and vibrant team who believe in collective endeavors for accomplishments. Our sincere gratitude goes to all the staff, stakeholders, and network partners who stood with us.” mentioned Senior Management of Navigators Shipping and Logistica LLC.

Navigators’ projects team in the UAE had recently moved two huge air separator steel column units in a meticulously planned operation despite numerous challenges. One High pressure and One low-pressure unit were transported from Ras Al Khaimah to Jebel Ali port for its onward journey through the sea. The challenging move was accomplished in 4 nights, as the permission for the land transport was allowed only from mid-night to 5:00 am. This project brought in the Logistics Middle East award for the Navigators group as the breakbulk operator highly commended accolade as the freight forwarder.
