

MED7@ - Serving immediate and high-quality urgent medical care 7 days a week

Med7 addresses a broad range of urgent care and general medical care needs.

California, Sacramento, Mar 17, 2021 ([Issuewire.com](https://www.issuewire.com)) - MED7 ®, having its branches in four locations serving Sacramento, Roseville, Carmichael, and Folsom, is well-known for offering high-quality and affordable medical care services.

Dr. Merl O'Brien launched the [urgent care Sacramento](#) facility in 1980 after she witnessed people's inconvenience in getting immediate urgent care for non-life-threatening conditions while working as a part of ER doctor's team at the Emergency room.

Later, it got its name as MED7 ® and began to focus on the purpose of providing quick and reliable urgent medical care that often receives delays at Emergency room centers. She acknowledged that people had a hard time getting appointments for their immediate medical care needs, as ERs constantly prioritize life-threatening conditions or emergencies over any other medical care.

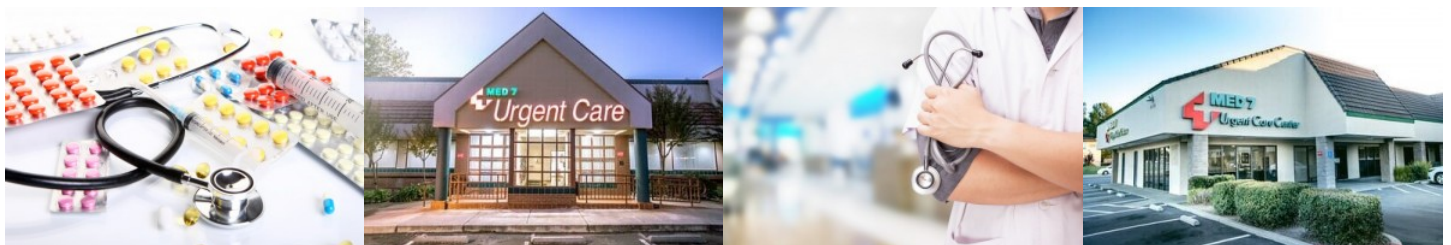

According to Dr. Merl O'Brien, the founder of MED7 ®, "At present, people require fast and convenient medical care. They want to receive it at affordable medical costs too. A person who's coming with the expectation of receiving quick walk-in attention for his injuries finds waiting in queue extremely pesky at ERs. We are serving our patients with immediate walk-in care facilities 7 days a week. We allow you to take appointments and schedule timings for medical assistance at your convenience. At MED7 ®, we provide comprehensive primary care and urgent care in Sacramento".

Confronted with hardships in the initial period, MED7 ® eventually came out to be a success. With a team of qualified physicians, the urgent care MED7 ® facility serves its patients with quality and quick urgent care. Since it was developed, it now serves in 4 locations: Roseville, Carmichael, and Folsom. Being in this service since 1980, the urgent care center has an exceptional and experienced team of doctors who are compassionate towards their patients and take pride in delivering superior medical care service.

About MED7 ®

MED7 ® addresses a broad range of urgent care and general medical care needs. Besides providing immediate medical care for injuries or illnesses, MED7 ® also addresses other medical care services including X-rays, EKG, [pre employment physicals](#), regular health checkups, sports or DOT physicals, pharmacy, general medical care, and [drug alcohol testing](#).

Understanding our patients have the option to choose from many urgent care facilities in the market, we are committed to providing an exceptional level of service when it comes to all your primary and urgent care needs.
