

Michael Green, MD, FACC, a Cardiologist with Northwest Medical Center - Springdale

Get to know Cardiologist Dr. Michael Green, who serves patients in Springdale, Arkansas.

New York, New York City, Mar 23, 2021 (IssueWire.com) - Dr. Green is a board-certified cardiologist who is affiliated with Northwest Medical Center - Springdale, which is a part of Northwest Health.

As one of the largest health systems in Arkansas, Northwest Health provides inpatient, outpatient, emergency, diagnostic imaging, medical and surgical services to the Bentonville, Fayetteville, Johnson, Siloam Springs, and Springdale communities. Its mission is to provide extraordinary healthcare service and enrich the lives of the communities it serves.

In 1989, Dr. Green earned his medical degree from the University of Arkansas for Medical Sciences - College of Medicine. He then went on to complete his residency in cardiovascular medicine at the University of Oklahoma Health Sciences Center.

He was the first cardiologist to implant a biventricular pacemaker in Arkansas. He also led in the establishment of Northwest Arkansas' first Congestive Heart Failure Center, and the area's first Accredited Chest Pain Center at Northwest Medical Center - Springdale.

Dedicated to excellence, the doctor is board-certified in both internal medicine and cardiovascular disease by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

A cardiac survivor himself, Dr. Green can reach out and resolve some of the physical and mental challenges that the patient may face. He is a Fellow of the American College of Cardiology (FACC) and a member of the American Heart Association.

Cardiology is a branch of medicine that deals with disorders of the heart, as well as some parts of the circulatory system. The field includes medical diagnosis and treatment of congenital heart defects, coronary artery disease, heart failure, valvular heart disease, and electrophysiology. As a cardiologist, Dr. Green specializes in diagnosing and treating diseases of the cardiovascular system.

In the last few years, Dr. Green has been involved in a study called a National Cardiogenic Shock Initiative. Historically, patients in shock in the setting of acute myocardial infarction had an 80% mortality. The study was recently published which revealed 72% of the patients in the same setting successfully walked out of the hospital. It was done in collaboration with several physicians and hospitals throughout the United States.
