

# Pinhero Construction, Inc. Recognized on Inc. 5000 Regionals List of California's Fastest Growing Private Companies

**California, Murrieta, Mar 16, 2021 ([IssueWire.com](https://www.issuewire.com))** - Pinhero Construction, a full-service commercial contractor, has ranked No. 145 on the *Inc. 5000 Regionals: California 2021*, with a growth rate of 117 percent. The prestigious list represents 250 of the fastest-growing private companies in California and offers a unique look at their growth rates. This is the first time on the regional list for the construction company.

The accelerated growth of Pinhero Construction has come over the last few years of consistent production of commercial properties along the west coast. Completing large-scale projects for elite real estate firms and growing restaurant chains has cemented their edge as leading builder. Stepping into new markets and broadening their reach in existing ones, Pinhero Construction partners with other innovative brands stepping outside the box.

The recent completion of Orange County's [Rodeo 39 Public Market](#) during the pandemic has proven a large part of Pinhero's success. The team built the 37,000 sq. ft food hall to include 27 tenants, 3 outdoor patios and a wide variety of local fare in just over a year.

The 2021 Inc. Regionals list highlights the strongest privately-owned companies in California, where the 250 businesses averaged a median growth rate of 137 percent. They also credit generating nearly \$7 billion to the California economy, with Los Angeles, San Diego, and the Bay Area bringing in the highest overall revenue.

Complete results of the nominees, their company profiles, and growth rates can be found on the [Inc. 5000 website](#).
