The EP consists of three exciting rock tracks like, '**Aphelion**', '**Dualism**' and '**Preta**'. Each of the tracks has a puissant musical arrangement enriched with intense chords of guitar and organic drum beats. The tracks also include

enigmatic electric guitar solos which appear to be immersive and intriguing. These instrumental tracks feel strangely familiar with retro vibes from classic rock ballads. At the same time, the modern influences make the sound design refreshing as well. Even though there are no vocals in tracks, each of them carries the potential to stir the emotions of the listeners.

Hailing from Bay Shore, **DiStefano, Mazza & Ward** is an instrumental rock band that is formed by three multifaceted music artists. Peter DiStefano of “Porno For Pyros” at the guitar, Ray Mazza of “Apollo’s Ghost” at the drums and Ivan Ward of “Mental Blossoms” at the bass have united together and such an amazing power trio has formed. Each of their musical skills reflects through each of the tracks from the latest EP ‘[Nøkken](#)’. The EP has been released under the label of DK.

This musical group is making some significant progress through the industry with their well-tooled and finely calibrated instrumental tracks that provide a potent punch of rock anthems.
