

Schizophrenia is Curable 100% Without Medication By Dr. Kailash Mantry

Maharashtra, Mumbai, Mar 12, 2021 ([Issuewire.com](https://www.issuewire.com)) - According to the World Health Organization, [20 million people](#) had Schizophrenia in 2019 and it is taking more and more people under its influence with every sunrise.

Schizophrenia is a chronic mental disorder. It is associated with distorted behavior, emotion, language, perception, thought, etc. Victims of this mental disorder always stay in a virtual reality that is miles away from real life. It also affects the personal life of the victim and sometimes the family and friends are unable to control the victim.

While people tend to think that schizophrenia is a multiple personality disorder, it is nothing but a loss of thought from reality. It is generally linked with the surrounding environment.

It affects individuals of every age. The symptoms start in teens. They stay in a nascent stage and become prominent with age. The sudden change of behavior or mood and lack of sleep could be the early symptoms of this complex mental disorder. As treatment becomes difficult when increasing severity, the mental disorder must be treated as early as possible.

The doctors believe that treatment of schizophrenia is impossible without administering medicine. But, [Dr. Kailash Mantry](#) has proved it otherwise. He has been helping people to tame the schizophrenia demon, without medicine, for the last 25 years.

[Dr. Kailash Mantry](#) is a life coach, based in Mumbai. He believes in the philosophical saying that the solution to every puzzle lies in the puzzle itself. Based on this he has formulated a revolutionary approach to treat [schizophrenia](#) without medicine. He also treats [ADHD](#), [anxiety](#), [autism](#), [bipolar disorder](#), [depression](#), insomnia, stammering, OCD, mental illness, etc, without medicine, employing his revolutionary treatment protocol.

Antipsychotic drugs cause many unpleasant side effects like mental fog and cognitive impairment. Attitudes Schizophrenia is changing. Dr. Kailash Mantry opined in an interview that he does not understand why medicines are given. No medicine is available to cure mental illness. These are administered not to cure schizophrenia but just for showing and making the person more lethargic. It is a psychological and emotional disorder and medicines have no role to play in this.

Medicines only stimulate the brain and nervous system of the patient. It further makes treatment more difficult by ruining the body and brain of the person suffering from schizophrenia. Schizophrenia patients who have not taken any medicine respond to the treatment better than those who were under medications.

Dr. Kailash Mantry is a Mumbai-based life coach. He treats patients suffering from schizophrenia and a lot of other mental diseases without administering any medicine. While the internet is over-flooded with statements that it is not possible to cure this disease without medicine, he has developed a natural healing method with his dedicated research. Now it is possible to cure this disease and individuals suffering from this can live a normal life.

Several factors can cause a mental illness. These might generate from non-fulfillment of expectation, fear, frustration, and anger. Dr. Kailash believes that all types of mental illness can be treated naturally without administering any medicine and solves many problems beyond control by applying his unique therapy. But the at-home treatment does not succeed because, in most cases, the patient becomes stressed in the home environment. Strict parental behavior is also another great cause of stress. This is why the patients suffering from schizophrenia need to be admitted to the hospital.

Dr. Kailash Mantry is treating patients suffering from schizophrenia and other mental illnesses without applying any medicine for over two decades. He heads a team of skilled professionals who work with him on this mission. His son Sagar, daughter Pooja, wife Pramila, and 10 more coaches assist him in his endeavor to give people relief from mental illnesses in a natural way without giving any medicine. They establish a strong and amicable connection with the patients. It comforts the patients and the patients open up with time. It goes a long way to find the root cause of the problem that was embedded deep in the mind of the patients.

Frustration and negative thinking are the predominant causes of all mental disorders. The situation gets more aggravated if there is a lack of support from the family. Teenagers suffering from schizophrenia also need huge parental support. This is why the method of solving the problem with the victim, their family, friends, and acquaintances is the right approach for treating mental illnesses. Psychiatrists are hardly following these and loading the patients with tons of drugs. Unfortunately, no medicine in the world can cure this. It only drags the victim into a deep dungeon of the mental disorder and turns the treatment more and more difficult.

The treatment method is long and time-taking. It is based on the premises of changing perception, improving mental strength, bringing out of the bad memories of the past, helping to live in the present and help them in believing that they can lead a normal life.

When a Schizophrenia victim comes to the hospital, Dr. Kailash Mantry holds a combined session with the patient and their family. It gives them valuable insights into their history and becomes a crucial step for starting the treatment protocol. His close relationship with the patient and their family makes him stand out from the psychiatrists who just give them a long list of medicines.

Dr. Kailash Mantry treats the patient with his developed therapies. Although people can see a noticeable difference in attitude within a few days, a complete cure is possible with prolonged treatment. It depends on the level of the mental disorder, age of the patient, and environmental conditions.

Dr. Kailash has an ambitious plan. He is setting a 10,000-bed hospital for mental patients. His life goal is to cure 10 lakhs of mental patients without any medicine. He is also creating a large number of life coaches to treat mental illness patients naturally.
