

Theuji shines on YouTube as educator & entrepreneur

Jharkhand, Daltenganj, Mar 30, 2021 (IssueWire.com) - Internet users in India are now more than 700 million, with the millennials redefining the virtual space in pursuit of their dreams. YouTube has emerged as the favorite stopover for the millennials to hone and showcase their talents and innovations.

The novel Coronavirus has threatened to disrupt the normal ecosystem. But the pandemic couldn't stop a new set of viral young stars across the world, who have shown to be ready to change the world with innovation and creativity.

Theuji is India's youngest YouTube educator and digital entrepreneur. He has demonstrated as a pioneer in the YouTube-driven content industry. Theuji has launched his new organization called 'Webude Media'. Webude Media services provide web and app development, search engine optimization, influencer and celebrity management, providing PR expertise, social media marketing, etc.

Hailing from Daltonganj, this young entrepreneur is providing the latest tech news, gadget reviews, digital marketing, SEO tips, YouTube tutorials, blogging, and much more. His expertise in the field has brought a refreshing change in the digital marketing industry.

Apart from being the founder of Webude Media, he also owns two other companies, which have been hailed as the highest turnover companies in digital marketing in India. With innovation and efficiency, Theuji is excelling in providing the best services to clients. His services include bringing in unique ideas and digital strategies to enhance the online presence of clients by simultaneously increasing their brand values and awareness.

Theuji is working hard with determination even during the tough times of pandemic to give his clients the best credible information and advice. He believes in taking advantage of every opportunity. He is among the rising YouTube educators and entrepreneurs in India. He is self-made.
