

WorldRemit takes digital payments to Wakanda!

United Kingdom, London, Mar 31, 2021 ([Issuewire.com](https://www.issuewire.com)) - Digital payments company WorldRemit has today claimed that it will now deliver digital payments to Wakanda and accept the "Vibranium Dollar" for money transfers on its platform.

WorldRemit revealed that the company has struck a lucrative deal with the nation of Wakanda to become its official digital payments provider, thus launching the first Vibranium Dollar-friendly money transfer service in the world.

A study commissioned by WorldRemit in cooperation with Wakanda's Embassies in the UK, US, and EU revealed that over 90% of the Wakandan community abroad were eager to see the launch of Vibranium Dollar money transfer facilities.

Of the survey respondents, 92% said they would prefer a digital-first money transfer provision, and a further 97% said they would prefer the pioneering service provider to be WorldRemit, which has built a strong foothold in the region with its world-class services.

A spokesperson for WorldRemit told us: "This move follows growing calls from the Wakandan diaspora to make our fast, safe and easy-to-use WorldRemit service available to the community. As a leading digital payments provider, we are delighted to be offering our money transfer services to the Wakandan community globally as well as in Wakanda."
