

101 Blockchains Named High Performer in G2 Spring 2021 Report

Tel Aviv, Ramat Hasharon, Apr 2, 2021 ([Issuewire.com](https://www.issuewire.com)) - G2 Inc. has rewarded [101 Blockchains](#) with four badges in its latest G2 Spring 2021 Reports. 101 Blockchains has earned three 'High Performer' badges and one 'Best Support' badge in the G2 Reports for Spring 2021. G2 has anointed 101 Blockchains with the 'High Performer' badge in three different categories - Grid Report Spring 2021, Small Business Grid Report Spring 2021, and Europe Regional Grid Report Spring 2021. Furthermore, 101 Blockchains has also scored the 'Best Support' badge in the G2 Grid Report Spring 2021 for online course providers.

Accomplishments of 101 Blockchains in G2 Spring 2021 Reports

101 Blockchains is an online course provider specializing in the field of blockchain. It has been successfully providing certifications, training materials, research, and industry information pertaining to blockchain for aspiring professionals and practitioners worldwide. The blockchain education and research provider had also achieved 'High Performer' badges in the G2 Winter 2021 reports. The findings of the G2 Spring 2021 reports shed light on the online course provider's commitment to achieving customer satisfaction.

[Aviv Lichtigstein](#), CEO of 101 Blockchains, was glad to submit his statement, "The badges we have earned in G2 Spring 2021 Report shows how we are closer to perfection in many ways. The recognition as a 'High Performer' in three different categories, with the badge of 'Best Support', is the best reward for the efforts we have been putting in to improve blockchain education and research".

He also added, "We look forward to G2 reports for obtaining a firsthand impression of our market performance. Over the years, we have been scoring good numbers in G2 reports, and we shall continue to do so in the future. Your honest feedback and reviews have helped us reach here, and we would love to have you always by our side".

The Credibility of G2 Reports

G2 releases its Grid Reports for different quarters in a year for different categories of businesses. The Grid Reports for Online Course Providers for Spring 2021 evaluate online course providers on the basis of various factors. Online course providers feature different types of offerings such as online courses, certifications, practice tests, and other resources.

G2 utilizes customer satisfaction and market presence as the two prominent factors for ranking online course providers. The customer satisfaction aspect measured by G2 also features an emphasis on other notable factors that reflect on the credibility of its insights.

The reports of G2 also focus on other factors related to customer satisfaction such as meeting requirements, ease of administration, ease of use, ease of doing business with, ease of setup, and quality of support. Therefore, G2 Spring 2021 Reports for online course providers offer the assurance of credible assessment.

101 Blockchains has earned a '**High Performer Spring**' badge in the Grid Report for Online Course Providers Spring 2021. 101 Blockchains has achieved a great level of customer satisfaction in the Grid Report Spring 2021, thereby coming among the top entries among high performers.

101 Blockchains has also received the '**High Performer Small Business**' badge in Small Business Grid Report for Online Course Providers. 101 Blockchains has also scored well in terms of customer satisfaction in the Small Business Grid Report. As a result, it is one of the prominent mentions among high performers among the target audience of small businesses.

The G2 Spring 2021 Reports also bring another badge for 101 Blockchains with the '**High Performer Europe**' badge. 101 Blockchains achieved a score of above average in customer satisfaction in G2 Europe Regional Grid Report for Online Course Providers.

In addition, 101 Blockchains has also earned the '**Best Support**' badge in the G2 Spring 2021 Reports. The commitment of 101 Blockchains to customer support has been influencing their customer satisfaction rating for quite some time.

G2 Algorithm and Rating Structure

According to the G2 scoring methodology, High Performers among online course providers have higher customer satisfaction with low market presence. The rating of products and sellers on the basis of reviews collected from the G2 user community and data collected from social networks and online sources is another highlight of the G2 Grid reports. G2 employs the unique G2 algorithm v3.0 with the available data to draw estimates of customer satisfaction and market presence.

The satisfaction rating in G2 reports depends on certain factors, which also provide the assurance of credibility in G2 badges. The first factor refers to satisfaction of customers with end user-focused product attributes on the basis of user reviews. The second factor in the customer satisfaction rating of G2 refers to popularity and statistical importance, according to a number of reviews. The next factor in

customer satisfaction grading by G2 refers to the quality of reviews followed by the age of reviews. Subsequently, G2 also emphasizes on the satisfaction of customers with administration-based product attributes for satisfaction ratings in G2 reports.

A Long Way Ahead for the 101 Blockchains

The findings from the G2 Spring 2021 Report establish many key prospects for the improvement of 101 Blockchains. The niche market presence of 101 Blockchains with a focus on blockchain technology is a challenge from many perspectives. As the applications of blockchain technology gain mainstream recognition, enterprises face the need for skilled and experienced professionals.

Therefore, 101 Blockchains can capitalize on the trend of the rising need for [blockchain training and certification](#) by strengthening customer satisfaction. In the long run, badges achieved by 101 Blockchains in the G2 Spring 2021 Report can show the future prospects. Will 101 Blockchains improve its course offerings or expand into new markets?
