Tamil Nadu, Thiruchirapalli, Apr 20, 2021 (Issuewire.com) - AMMAN Steel Group started in 1978, has made remarkable progress over the past 42 years and it is now the leading steel producer. A group of companies, AMMAN Steel Corporation was initially a raw material supplier and trade organization. AMMAN Steel Group soon expanded into the biggest integrated steel plant with an Embedded quality concept in the private sector in South India.

AMMAN Steel Group started in 1978, has made remarkable progress over the past 42 years and it is now the leading steel producer. A group of companies, AMMAN Steel Corporation was initially a raw material supplier and trade organization. AMMAN Steel Group soon expanded into the biggest integrated steel plant with an Embedded quality concept in the private sector in South India.

It is one of the largest and most respected companies in South India with 2 Rolling Mill plants in Tamil Nadu and an iron-making plant in Andhra Pradesh. It is headquartered at Tiruchirappalli, Tamil Nadu. The company is engaged in the business of manufacturing Bars and Rods of various sizes. The rolled products are Steel Rods(TMT/CRS/RINGS). These rolled products, namely 6,8,10,12,16,20, and 25mm rods are extensively used in buildings and other civil construction works. AMMAN-TRY Steel has always been a leader in the Steel Industry, introducing new concepts in steel and started to produce CRS Bars in 2007 after that AMMAN-TRY emerged as the major steel producer in Tamil Nadu.
