A 2000 graduate of Life University, Dr. Moran has trained with some of the best and brightest in chiropractic today, including Dr. George Goodheart (Applied Kinesiology), Dr. John Brimhall (Father of the Wellness Revolution on Chiropractic), and Dr. James Cox (Founder of the Cox Flexion Distraction Decompression Technique).

Laser-focused on communication and patient care, he offers an incredibly extensive knowledge base and experience related to chiropractic practice. Ensuring the overall safety and efficiency of each process are his cornerstones. He utilizes the Activator Method for adjustments and provides strictly evidence-based suggestions and treatments.

Many people have hesitations towards chiropractic services in fear of the "cracking and popping" sensations. An Activator is an outstanding tool to properly adjust without the uncomfortable "sounds of adjustment."

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain, back pain, headaches, vertigo, and a long list of other ailments and conditions. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself naturally, without the use of medication or surgery.
