

Cerebrum Infotech Partners With Canadian Firm

California, Emeryville, Apr 2, 2021 ([Issuewire.com](https://www.issuewire.com)) - Cerebrum Infotech has successfully acquired **Jason Chen**, the **assistant manager of a Canada-based Global Equities firm** for the partnership program. The partnership will allow Cerebrum Infotech to attract well-established and respected businesses. **Jason Chen stated**, *"I am thrilled to partner with Cerebrum Infotech. The company has made its mark in the competitive world of [software product development](#) in such a short span. I am certain that partnership will be helpful to our firms."*

The partnership program of the company has been an enormous hit and brings popular firms and people onboard. The partnership program reflects the desire of the company to collaborate with organizations that share our vision and commitment.

The company's partnership program is the ultimate platform for partners, enterprises, and investors to speed up their business growth and achieve milestones.

Cerebrum Infotech Offers Three Types of Partnership Programs:

Sales-Based

The sales-based program is beneficial for the selling experts. The partner sells products and earns up to 25% commission. The company provides end-to-end training and 24/7 support to its partners.

Investment-Based

The investment-based partnership program provides users royalty when they invest in Cerebrum Infotech's products. The company provides you with a branded website, co-marketing, and promotions, and users easily get access to the wider marketing network and target diverse industry verticals.

Launch Your Own Product

The launch of your own product [partnership](#) program provides users with customized features of the product they wish to launch. The user gets their own branded website. Cerebrum Infotech takes care of the product branding and 24/7 support from experts.
