

Croma Campus Introduces Best UG NX Training in Noida

UG NX Training in Noida

Uttar Pradesh, Noida, Apr 11, 2021 (Issuewire.com) - Summary

Croma Campus is introducing the best UG NX training in Noida, which is offered by industry-level experts totally dedicated to guiding through the [UG NX Training in Noida](#). The training is provided in a manner that the user will learn about all the fundamental tools and commands of this software. It offers the best IT technical training in the respective course. The training is provided based on basic and advanced levels with proper practical knowledge. The industry experts with eight to ten years of experience in UG NX, conduct the training program.

UG NX (Unigraphics NX), also known as Siemens NX, is an advanced CAD/CAM/CAE bundled of software originally developed by UGS Corporation but owned by Siemens PLM Software since 2007. This item is used for design, engineering analysis, construction of finished structures using the included processing modules.

The UG NX training is based on the following key features:

- To ensure the feasibility of the client application
- Video recording of every session
- Live project-based training
- Job oriented course curriculum
- Hiring professionals approved course curriculum
- Post-training support to implement the knowledge on client projects

- Certification based training, created by Certified Professionals from the relevant industries as per the market and certification need
- Arrange interview till placement

Not only in Noida but Croma Campus also offers the [UG NX Training in Gurgaon](#). In both, the training will consist of the following points:

- Each training session will be based on the live industry products.
- There will be well-equipped labs with the updated hardware and software.
- The training classrooms will be geared up with projectors and Wi-Fi access.
- The trainer conducting the training will be certified in their respective fields.
- Each training session will fulfill the criteria of the current industry standards.
- The training curriculum that will be followed is approved by our placement partners.
- A worldwide recognized course completion certificate will be offered after the completion of the course.
- The provided training will be conducted by professionals with 5 to 15 years of industry experience.
- Training will be conducted on a daily as well as a weekly basis and can also be customized as per the candidate's requirements.
- All the study material will consist of E-books, online videos, certification handbooks, dumps, 500 interview questions, and project source material.
- 100% free personality development classes that will consist of Spoke English, Group Discussions, Presentations, and Mock Job interviews.
- Complete assistance will be provided by the mentors for understanding the course schedule, interview preparations, and total support in job placements.
- The video recording of each session will be provided after the training so that in case if any student misses the class or wants to recall any point of the tutorial, he or she may refer to that video recording.

About the Company

Croma Campus is one of the best IT training institutes in the Noida location providing services and training for the last 10 years. The institute was started in 2008 with ISO 9001: 2015 Certified Company. It provides complete corporate and industrial-based training along with complete guidance from dedicated mentors so that learning can be engaging. Here you will get industry expert trainers who are already working in an eminent and prestigious organization with experience of more than 10 years of experience.

The main aim of the training is to provide the candidates with a high level of knowledge and make them stand out in the competition. Till now, more than 3500+ candidates have been mentored and have been placed in the top MNCs. Croma Campus has a strong association with top-level organizations such as HCL, TCS, Wipro, Birla soft, IBM, Dell, and many more. To date, many candidates have been placed in top MNCs as per their skill sets and interests.

The training will be provided with high-tech infrastructure and lab facilities. During the training, continuous monitoring on the performance and growth of the candidate is done, just to observe their capabilities and improvement. The candidates are also provided with access to servers so that they can implement the projects at home with ease.

Make sure to get yourself enrolled in either of the training courses at Croma Campus and groom your

skills of UG NX. For the enrollment in the course, the candidates can choose any of the payment modes such as cheque, EMI, cash, credit card, debit card, as well as net banking.
