

Curzon Creative Preschool Announces Keep Fit With Curzon Initiative

Create a collective movement to feel better and move together with Keep Fit with Curzon.

Quebec, Montreal, Apr 19, 2021 ([Issuewire.com](https://www.issuewire.com)) - Curzon Creative Preschool is proud to announce the launch of Keep Fit with Curzon. The ethos behind it is to encourage people of all ages to move and connect with themselves and each other whilst fundraising for the school.

Each month we will set new challenges that people can sign up for that are geared towards both children and families. You can set up a team with your family and friends from around the world, or you can do it solo, it's up to you, as long as you are having fun that is what matters!

Being a virtual event, our aim is to reach friends and families from all over the world to create a collective movement to feel better and move together.

Last month we saw participants climb Mt Everest virtually and this month we have collaborated with Ben

Saunders a world-leading polar explorer to recreate his Antarctica expedition.

The latest challenges can be found here:

About Curzon:

Curzon is a not-for-profit co-operative preschool, which means we require and thrive on parental involvement. We rely on student registration and the support of fundraising activities to maintain our operations and parental involvement is fundamental to the school's philosophy and administration.
