

Daniel Rodriguez, MD, a Pediatrician & Allergist and Immunologist with Allergy & Asthma Specialists, P.C. of New Jersey

Get to know Pediatrician & Allergist and Immunologist Dr. Daniel Rodriguez, who serves patients in Saddle River, New Jersey.

New York, New York City, Apr 22, 2021 ([IssueWire.com](https://www.issuewire.com)) - Dr. Rodriguez is a dual board-certified pediatrician & allergist and immunologist at Allergy & Asthma Specialists, P.C. of New Jersey in Saddle River, New Jersey.

Having struggled with asthma as a child, he is dedicated to caring for individuals with asthma. He is also experienced in taking care of a wide variety of allergic disorders and immunodeficiencies.

Regarding his educational background, Dr. Rodriguez graduated with his medical degree from Rutgers New Jersey Medical School. He completed his residency in pediatrics at Albert Einstein College of Medicine, where he was chosen as chief resident. He then continued his training at Louisiana State University in New Orleans with a fellowship in allergy and immunology.

With an unwavering commitment to his speciality, the doctor is board-certified in pediatrics by the American Board of Pediatrics (ABP). The mission of the ABP is to advance child health by certifying pediatricians who meet standards of excellence and are committed to continuous learning and improvement.

Furthermore, he is board-certified in allergy and immunology by the American Board of Allergy and Immunology (ABAI). The mission of the ABAI is to improve the quality of medical care by the development and utilization of professional and educational standards for the initial certification and maintenance of certification of physician specialists in allergy and immunology.

Licensed to practice medicine in New Jersey, Dr. Rodriguez is affiliated with Hackensack Meridian Health Pascack Valley Medical Center and NYC Health + Hospitals/Jacobi.

Pediatrics is the branch of medicine that involves the medical care of infants, children, and adolescents. The American Academy of Pediatrics recommends individuals be under pediatric care up to the age of 21. Pediatricians provide medical care to people ranging in age from newborns to young adults. They are trained to examine, diagnose, and treat children with a wide variety of injuries and illnesses through all of their developmental stages, as they grow and mature.

Allergy and immunology involve the management of disorders related to the immune system. These conditions range from the very common to the very rare, spanning all ages and encompassing various organ systems. An allergist/immunologist is a physician specially trained to diagnose, treat, and manage allergies, asthma, and immunologic disorders, including primary immunodeficiency disorders.
