New York, New York City, Apr 12, 2021 ([IssueWire.com](https://www.issuewire.com)) - Dr. Moreno is described as “a doctor who has a heart for his patients” with a warm smile and sense of humor that immediately puts them at ease. He has been in practice with Obstetric and Gynecology Physicians of Flint, PC in Grand Blanc, Michigan since 2013.

Obstetric and Gynecology Physicians of Flint, PC is a private practice group of physicians specializing in obstetrics and gynecology. Services include those related to pregnancy, women’s well-being care, and infertility. Ensuring best health through education and prevention, the surgical specialty group provides services that range from minor in-office procedures to hysterectomy and laparoscopic procedures, including the state-of-the-art Da Vinci system which are performed in the hospital.

Born in Cuba, Dr. Moreno always knew he wanted to be a doctor - his maternal grandfather was a physician. Obstetrics and Gynecology is the medical specialty that encompasses the two subspecialties of obstetrics and gynecology. An obstetrician-gynecologist, or OB-GYN, is a healthcare professional who specializes in female reproductive health.

A little-known fact about Dr. Moreno is that for 17 years, he helped care for women who had no health insurance by donating his time to Planned Parenthood in Flint. He provided medical treatment such as physical exams, pap smears, and early cancer detection for those in need. “It was something that was needed in the community and nobody would do it,” he said.
