

Edyta Dudzic, MD, Nuclear Medicine Physician

Get to know Nuclear Medicine Physician Dr. Edyta Dudzic, who serves patients in Ontario, Canada.

New York, New York City, Apr 5, 2021 ([Issuewire.com](https://www.Issuewire.com)) - Dr. Dudzic is a board-certified nuclear medicine physician who has over 30 years of experience in her field. She is currently on staff at St. Michael's Hospital, Vitalim Imaging, Brantford General Hospital, and Kingston General Hospital - all of which are located in Ontario, Canada. St. Michael's Hospital is a teaching hospital and medical center. Vitalim Imaging is a state-of-the-art medical imaging clinic providing comprehensive diagnostic imaging

services. Brantford General Hospital is a regional acute health center, and Kingston General Hospital is an acute-care teaching hospital affiliated with Queen's University.

Dr. Dudzic has special expertise in nuclear cardiology and is continuously working to provide exceptional care and support to her patients within Toronto, Ontario. Dr. Dudzic earned her medical degree from the University of Alberta in 1988. She then went on to complete her residency in family medicine at McGill University in 1989, followed by her residency in internal medicine at the University of Alberta in 1992. She also completed her residency in nuclear medicine at the University of Alberta in 1994.

Dr. Dudzic is an active member of the Canadian Medical Association and the Ontario Medical Association. She is also a Fellow of the Royal College of Physicians and Surgeons of Canada. Dr. Dudzic attributes her success to her mentors at McGill University. Her favorite professional publication is the Journal of Nuclear Medicine. In her spare time, she enjoys practicing ballet and snowboarding.

Nuclear medicine is a medical specialty involving the application of radioactive substances in the diagnosis and treatment of disease. Nuclear medicine physicians are medical specialists who use tracers, usually radiopharmaceuticals, for diagnosis and therapy. Nuclear medicine procedures are the major clinical applications of molecular imaging and molecular therapy.
