

Efinxace brings his “Let Me Go” visual in support of “Diaries of the Heart” LP

Efinxace handles heart break differently

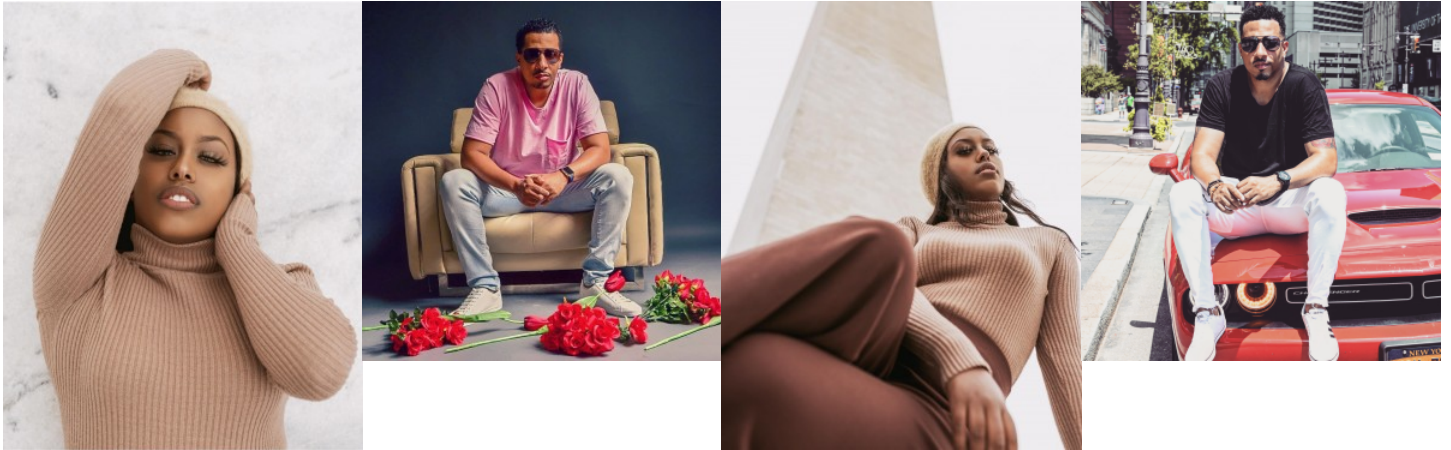

Delaware, Newark, Apr 21, 2021 ([Issuewire.com](https://www.issuewire.com)) - Efinxace arrives with a unique background and impressionable talent behind the microphone. The Liberian Lebanese immigrant moved to the U.S. in 2014 in an effort to pursue his musical career. Things have moved steadily since the release of his debut album “Diaries of the Heart” is released on March 27th. The 10-track effort combines sounds with Afrobeat, Dancehall, R&B, and Pop all being blended together fluidly. Production was handled largely by

Cornelius Wright a.k.a. Bennie-Ox and Tyro. The writing bulk is handled by Efinxace himself with assistance from Grammy-nominated singer and songwriter Cyrus Deshield.

His latest video supports the album standout “Let Me Go”, which sees Efinxace croon alongside Beth Grey who made her official music debut with this feature. Beth Grey is a DMV-area singer-songwriter, model, and third-year law student. She is a Canadian-born Ethiopian-American. The song deals with heartbreak and wanting to escape a bad situation. The accompanying visual captures stunning views and is a great compliment to the record.
