

EKC Enterprises acquires Y Communication.

California, Fresno, Apr 20, 2021 ([Issuewire.com](https://www.issuewire.com)) - EKC Enterprises has announced its acquisition of Y Communication Inc of Roseville CA, a leader in commercial cable installation and network design within the greater Sacramento area. Financial details of the transaction were not disclosed.

“The strategic move in this acquisition is the addition of the talented individuals that we gained. From the design team to the BICSI-certified technicians, they will help deepen our team and make us stronger.” – Chris Shafer CEO, EKC.

Y Communications designs install and support a variety of copper and fiber optic cable networks to both commercial and enterprise-level clientele. Additionally, Y communications provide an established presence in the market of over 30 years. The acquisition will add to EKC’s strategic growth in the Sacramento area.

“The sale of Y communication to EKC Enterprises is massively beneficial to both companies,” said Steve Maldonado, VP of Operations, EKC. “While EKC will gain a highly talented team and knowledge base, Y Communications will benefit from continued growth and resources to expand beyond their current market.”
