

Elizabeth Marion Daquila, MD, a Family Physician in Private Practice

Get to know Family Physician Dr. Elizabeth Marion Daquila, who serves patients in Port Orange, Florida.

New York, New York City, Apr 9, 2021 ([IssueWire.com](https://www.issuewire.com)) - An established family physician, Dr. Daquila sees patients at her private practice in Port Orange, Florida. She offers a broad array of services geared to address today's most common non-emergency illnesses and injuries. She knows there is no such thing as a one-size-fits-all cure, so she never uses a one-size-fits-all approach to one's diagnosis.

Her practice is dedicated to three main areas of medical treatment: preventative care services such as annual physical exams, vaccinations, and wellness exams; diagnostics for many acute symptoms such as ear infections, strep throat, flu, colds, and other illnesses; and treatment for chronic issues such as hypertension, diabetes, elevated cholesterol, and others.

"Our mission is to provide you with personalized, high-quality care. We are dedicated to improving and maintaining your health through preventative care and treating chronic diseases" as stated on her website.

Throughout her academic career, Dr. Daquila graduated with her medical degree from St. George's University School of Medicine in the West Indies in 2004. She then went on to perform her residency in family medicine at Mountainside Hospital in 2009, where she was given the education, knowledge, and skills needed to manage diseases that are encountered by family medicine physicians in both inpatient and outpatient settings.

Dedicated to excellence, she is board-certified in family medicine by the American Board of Family Medicine (ABFM). The ABFM is a non-profit, independent medical association of American physicians who practice in family medicine and its sub-specialties.

A preventative care medicine specialist, Dr. Daquila's key to success is listening to her patients. She attributes her success to her desire to help people and dedicating her time to others.

Family medicine is a medical specialty devoted to comprehensive health care for people of all ages. The specialist is called a family physician or family doctor. A family physician is often the first person a patient sees when seeking healthcare services. They examine and treat patients with a wide range of conditions and refer those with serious ailments to a specialist or appropriate facility.

Voted a Top Doctor in Florida, Dr. Daquila has received numerous awards over the years, including Patients' Choice Award (2014, 2016, 2017, 2018, 2020), Compassionate Doctor Recognition (2014, 2016, 2017, 2018, 2020), and On-Time Doctor Award (2017, 2018, 2020).

Outside of practicing medicine, she enjoys painting and reading.
