

Eten Group Standing Strong in Tokyo

Japan, Tokyo, Apr 7, 2021 ([IssueWire.com](https://www.issuewire.com)) - Eten Group has firmly cemented their credentials as a major player within the Asian and Global Marketplaces respectively, and as they continue to grow – in terms of staff and physical space they have always kept a focus on retaining the founding core values that have made them so distinctive.

With its achievements and development in Tokyo, the framework they have built along with the incredible staff that has stood alongside the company as it has grown from strength to strength is impressive.

The road ahead is certainly unknown with the Covid 19 pandemic hitting every corner of the globe but we must be diligent and stay focussed to ensure our clientele receive the same dedication and passion they have received to date.

It began with a vision of creating a client-focused, commonsense wealth management company and a single client with \$100 to invest. Fast forward to 2021 and Eten Group serves over 5,500 clients worldwide who've entrusted the firm with more than \$15 billion.

Through markets good and bad, we have remained consistent with our personalized care for our clients and our commitment to exceeding expectations for both those who entrust us with their hard-earned money and for the employees who've been crucial to our success."
