

ExecHQ® Partners Launch Business Evaluation System for Small and Mid-Size Companies

ExecHQ®
Bringing Expertise to the Table

Tennessee, Nashville, Apr 15, 2021 ([Issuewire.com](https://www.issuewire.com)) - ExecHQ® Principals, Bill Egger, and Troy Wurth today announced they have launched a proprietary Business Evaluation System, the backbone of which, was developed by a graduate of MIT (Massachusetts Institute of Technology).

“Over 90% of Small and Mid-Size company owners or leaders are so busy running their businesses,

they don't have time to think about long-term strategies", said Wurth. "This system evaluates their overall business and gives them a prioritized 'action plan' to quickly and effectively move beyond what is holding them back from maximum potential so they can really grow their businesses".

The system has evaluated over 10,000 companies worldwide, increased annual revenues by an average of 21.63%, and has increased company valuations by a combined \$7 Billion.

"Our clients are typically privately held companies with annual revenues in the range of \$2 million to \$200 million", Egger added. "In most cases, third parties like financial planners, tax attorneys, etc. introduce us to their clients with these types of companies because they understand how we can positively impact their businesses".
