

Get to know the Dentists of Avanti Dentistry, who serve patients in Tysons, Virginia.

Avanti Dentistry

New York, New York City, Apr 20, 2021 ([Issuewire.com](https://www.issuewire.com)) - Avanti Dentistry is a Tysons-based family dentist practice that treats patients of all ages. The providers are committed to delivering the highest quality dental care and do so using advanced dental equipment.

They are a cosmetic dentist that offers services like checkups, teeth cleaning, crowns, veneers, and more. They also perform emergency dentist services that include bonding, root canals, crowns, and bridges.

Farshad Farhoumand, DDS, Bitra Farhoumand, DDS, Fotini Chrisopoulos, DDS, MSC, Jeannette Suh, DMD, Omit Dianat, Arash Mehrnama, Sanjeev Raj Bhatia, DDS, Ki Youn Kil, DDS, and the staff at Avanti Dentistry provide quality dental care, focusing on a comprehensive approach to oral health. The team is trained on advanced dental procedures and techniques so that patients can benefit from the latest in dental care.

Believing in the importance of listening to their patients, they take the time to truly understand each person's needs, goals, and lifestyle. By understanding their patients' objectives, they can provide solutions that will improve their health while transforming their smiles into something bright and beautiful.

Dr. Farshad Farhoumand, DDS

Born in Tehran, Iran, Dr. Farhoumand grew up in Ethiopia where he attended Italian and American schools. After going to college in Pittsburgh, Pennsylvania, he graduated from Georgetown University's School of Dentistry in 1976. He is an active member of the prestigious Seattle Study Club, a leading institute for the advancement of dentistry.

What makes Dr. Farshad so unique is that he has always kept current with the latest innovations, and he incorporates what he finds important and relevant into his practice. He makes dental care convenient for his patients by delivering crowns and bridges in a single appointment through the use of CEREC® technology, a sophisticated tool that produces perfect-fitting esthetic restorations.

Certified in placing dental implants, he has placed several hundred successful implants throughout his career. What's more is that he is available to treat all types of dental concerns, from aesthetic treatments to reconstructive dental procedures.

Recognized among the Top Dentists in the Northern Virginia area, Dr. Farhoumand appears as a guest expert on the TOP Doctors Medical Interviews, which can be seen on CNN, FOX News, Bravo, and MSNBC. He was selected as one of America's Top Dentists of 2013 and won the Best of Vienna 2012 Award in General & Cosmetic Dentistry.

In his 35 years of practice, Dr. Farhoumand has continued his father's legacy, who was also a dentist, by welcoming patients from all walks of life and cultural backgrounds. Fluent in many languages including Farsi, Italian, French, Amharic, and Spanish, his ability to communicate with his patients in their own language allows his patients to make informed decisions about their dental treatment.

On a more personal note, he resides in Great Falls, Virginia with his wife. He enjoys listening to music, hiking, and traveling.

Dr. Bitu Farhoumand, DDS

Dr. Farhoumand is a board-certified periodontist and implantologist. With her personalized, conservative, and caring approach to periodontal care, along with her gentle touch, she motivates her patients to keep up with their needed treatment and maintenance program in order to restore and maintain their overall health.

She earned her Bachelor of Arts degree in Biology with Distinction from the University of Virginia and attended UCLA School of Dentistry where she received her Doctor of Dental Surgery degree. During her time in dental school, she was involved in two implant studies at the Department of Periodontics and the Weintraub Center for Reconstructive Biotechnology, and the Department of Advanced Prosthodontics. She is also an active member of the American Academy of Periodontology, the Northeastern Society of Periodontists, and the Virginia Society of Periodontists.

Receiving her Certificate in Periodontics from New York University Postgraduate Program in Periodontology and Implant Dentistry in 2013, Dr. Farhoumand has also received extensive training in the areas of esthetic and functional crown lengthening, esthetic root coverage procedures, periodontal bone regeneration and pocket reduction surgery, minimally traumatic surgical extraction therapy with socket repair grafting, all aspects of simple through complex dental implant therapy, and the full scope of ridge and sinus grafting.

After her training, she got involved in teaching. She served some time as a Clinical Assistant Professor at the New York University College of Dentistry and is currently part of the Dental Implant Surgical Seminar as an Associate Clinical Professor at the University of Francisco Marroquin School of Dentistry in Guatemala. She also served as an expert-witness reviewer for a dental malpractice case in 2017.

A presenter at Jay Siebert Tri-school Symposium in Boston, Dr. Farhoumand was featured as a guest expert on Top Doctors Medical Interviews in 2013 and 2014, which was broadcasted on CNN, FOX

News, Bravo, and MSNBC. She received the “Best of Vienna Award” for Periodontics & Implant dentistry in 2012, the Patient’s Choice Award in 2015, and the Top Doctor Award for Periodontics & Implant Dentistry for 2016 and 2017.

Welcoming patients from all areas, she is fluent in English, Farsi, and Spanish.

Dr. Fotini Chrisopoulos, DDS, MSC

Dr. Fotini Chrisopoulos is a board-eligible specialist and prosthodontist, with advanced dental skills and exceptional chairside manner through 8 years of advanced clinical practice and specialty training.

With her genuine nature, she has helped manage many patients with dental anxiety and phobia and volunteers in programs that provide free dental treatment to people in need. She has also completed advanced specialty training in cosmetic and implants dentistry, treatment of temporomandibular joint disorders, surgical implant placement, prosthetic treatment planning, and execution of complex dental cases.

Academically, Dr. Chrisopoulos graduated first from the School of Dentistry of the Aristotle University of Thessaloniki in 2007, where she received awards for academic excellence upon completion of her studies. She completed a three-year postgraduate specialty program at Columbia University in New York, where she also obtained a Master of Science degree in Prosthodontics from Columbia University in New York, where she graduated with honors. She then became Chief Fellow in the Implant Periodontal Prosthodontics Fellowship at the University of Maryland School of Dentistry.

Throughout the years, Dr. Chrisopoulos has presented her research projects at numerous national and international dental meetings and has been involved in teaching dental students as a Clinical Instructor since 2009. She is the recipient of a regional research award from the American College of Prosthodontics North East Section, as well as several scholarships and honorary awards.

Among her professional affiliations, she is a member of the Northern Virginia Dental Society, American Dental Association, Virginia Dental Association, American College of Prosthodontics.

Her academic and professional dental career has been fulfilled with numerous awards and distinctions. She has been recognized as a Top USA Dentist in 2017, has been selected by her dental peers as one of the Top 10 Prosthodontists in Northern Virginia in 2017, and as a Top Prosthodontist by the Northern Virginia Magazine in 2016 and 2017.

As an expert in the implant dental field, Dr. Chrisopoulos lectures internationally and has lectured at the main podium of the World Congress of the prestigious International Congress of Oral Implantologists in August 2017.

The scope of her life and career goals is summarized in an Aristotle saying: “We are what we repeatedly do. Excellence, then, is not an act, but a habit.”

Dr. Jeannette Suh, DMD

Dr. Suh believes that every person deserves a healthy smile and she wants to help patients achieve it.

She received degrees of Bachelor of Science in biology and Bachelor of Arts in psychology from Emory University. She also completed her dental education at Tufts University School of Dental Medicine.

A member of the Northern Virginia Dental Society, Dr. Suh continues her education with various study groups and keeps up to date with changes in dentistry by attending dental conferences and continuing education courses.

During her free time, she likes to check out local restaurants and is involved with church activities. She is fluent in both English and Korean.

Dr. Omit Dianat

Dr. Dianat believes that it is essential to integrate advanced technology and evidence-based practice to provide the most effective treatments for his patients.

He completed his Doctorate in Dental Surgery degree and his Master of Science degree in Endodontics from Isfahan and Shahid Beheshti University of Medical Sciences in Iran in 2005 and 2008, respectively. He was a full-time faculty member for 5 years and also ran a private practice limited to endodontics for 6 years before moving to the United States.

After moving, he completed his second endodontic residency at the University of Maryland School of Dentistry in 2020 and obtained a certificate and a Master of Science degree in Dental Sciences. He also received a research grant from the American Association of Endodontists (AAE).

His research project studied “the accuracy and efficiency of a dynamic navigation system for locating calcified canals” and selected it as the highest-scoring proposal in the 2018 grant cycle. He was also awarded “The Tony Michael Ponti Memorial Scholarship” once he was a senior year resident at UMB.

Throughout his line of work, Dr. Dianat has published more than 45 endodontic clinical articles on different endodontic subjects mainly pain management, anesthesia, and regeneration.

In his free time, he enjoys spending time with his family and friends, swimming, and biking.

Dr. Arash Mehrnama

Dr. Mehrnama grew up in the DC Metropolitan area. Prior to moving to New York City for dental school, he attended George Mason University where he obtained a Bachelor of Arts degree in Biology. He went on to attend dental school at the New York University College of Dentistry. After spending four years in New York City for dental school and another year in North Carolina for an Advanced Education in General Dentistry Residency, it was no question that he wanted to return to the area he calls home.

During his years in New York City and North Carolina, Dr. Mehrnama had the opportunity to learn from mentors and colleagues that helped shape him into the dentist he is today. His goal in this profession is to build a connection with his patients and see what their dental goals are and do what he can to help them achieve those goals.

He is a member of the following organizations and study clubs: the Omicron Kappa Upsilon National Dental Honor Society, the Academy of General Dentistry, the FacialArt Dental Forum Study Club, and the Greenbelt Oral Surgery Study Club.

In his free time, Dr. Arash enjoys working out, watching sports (Go Caps!), painting, playing guitar and singing, watching movies, and attending concerts. He also has a pet parrot who has been in his family since before he was born.

Dr. Sanjeev Raj Bhatia, DDS

An experienced oral & maxillofacial surgeon, Dr. Bhatia brings an extensive knowledge base and experience in oral and maxillofacial surgery - especially in dental implants, bone preservation/augmentation, and orthognathic surgery. His areas of interest are the reconstruction of edentulous arches based on advanced complex bone grafting and reconstructive procedures, 3-D treatment planning, pre-prosthetic, perio-plastic surgery, and the use of laser technology. He and his team are of the few of the specialists who perform "All on 4" - "teeth in a day" implant-based full mouth reconstruction in this area.

A Diplomate of the American Board of Oral & Maxillofacial Surgery, he has been trained at leading centers in the world, including the USA, England, and India. He completed his residency and fellowship training in oral and maxillofacial surgery at The Brooklyn Hospital Center and associated Cornell School of Medical Sciences, New York. He then received his Doctor of Dental Surgery degree from the Loma Linda University School of Dentistry, where he was elected to the Omicron Kappa Upsilon Honor society for his scholastic and clinical achievements.

Before coming to the United States, Dr. Bhatia had completed his training and examinations in England to become a Fellow in Dental Surgery of The Royal College of Surgeons of England and Masters in Oral & Maxillofacial Surgery from King Georges' Medical and Dental College, India.

To keep abreast with the latest advances and have exchange ideas with his peers, he maintains affiliation with various professional organizations. He is a member of the American Association of Oral & Maxillofacial Surgeons, the American Academy of Implant Dentistry, and the Academy of Osseointegration. He is also affiliated with Inova Hospital in Lansdowne, Virginia.

Dr. Ki Youn Kil, DDS

Dr. Kil is a friendly and dedicated orthodontist who helps both kids and adults achieve healthy smiles. He is passionate about connecting with his patients and enjoys seeing their confidence blossom as he improves their orthodontic conditions.

Earning his Doctor of Dental Surgery from South Korea, he relocated to the United States, enrolling at New York University College of Dentistry in New York City. There, he completed advanced training in orthodontics and dental orthopedics.

Throughout his training, he honed his skills in treating malocclusions with both comprehensive and interceptive orthodontics approaches.

Active in his field, Dr. Kil enjoys membership and participation in the American Association of Orthodontists and the Northeastern Society of Orthodontists.

During his spare time, Dr. Kil likes to train in Muay Thai kickboxing, listen to music, and spend time with Gouda, his sister's four-year-old pug. He is bilingual and able to communicate with his patients in both English and Korean.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions, and perform other duties to ensure that the

teeth and mouth are healthy.
