

## IAE - Providing Ample Job Scope for AME Graduates Through Strong Tie-Ups with Airlines

**Madhya Pradesh, Bhopal, Apr 7, 2021 ([IssueWire.com](https://www.issuewire.com))** - Institute of Aeronautics & Engineering is one of the best educational institutions, encouraging students to become professionals in the sphere of the aerospace engineering industry. They provide various job scope for AME graduates through a tie-up with Air India Limited and Go Airlines (India) Limited. They have good tie-ups with airlines like Air India, Go Air, GMR, Airworks, TAAL, Indamer, etc., allowing aspirants to secure better jobs in the aeronautics field. Students are likely to get placed for multiple job profiles like aircraft maintenance technician, flight technician, aerospace engineer, and many others. To know more about the Institute of Aeronautics & Engineering and its wide range of programs, please visit: <https://iaebhopal.edu.in/>

Aircraft has become one of the most exciting and adventurous areas of Bachelor's studies. The demand for industry-ready aeronautical engineers has been growing rapidly in the industry. If any candidate is looking for a [diploma in computer engineering](#), why not go for a degree, which too in a field which has a high demand for skilled workforce in the coming years and the competition is low. Therefore, it is ideal to opt for a dual program that is AME with a bachelor's degree in technology or science, or management. A successful candidate will have an AME license after fulfilling the required examinations and maintenance experience and they will also have a bachelor's degree, making them eligible for facing the competitive world with better employment opportunities.

IAE is a well-known institute in aeronautical and aerospace education for more than two decades. They provide admission in two streams i.e. mechanical and avionics. The candidates who dream to be successful AME and achieve their goal can join them after completing their admission procedure. The entire desirous student seeking admission in the aircraft maintenance engineering course can directly fill their institute form that is available on their website. While for admission in AME course in accordance with CAR-66 & CAR-147 approved institute, a student should be passed in 10+2 examination in physics, chemistry, and mathematics or has complete three years approved diploma course in any of the streams.

IAE is one of the best aerospace engineering colleges that are equipped with an advanced library, lab, hostel, mess facilities, spacious classrooms, training facilities, and more. The institute is a pioneer and explorer in the field of aviation training with educational excellence of more than 30 years of imparting education in the field of engineering, management, graduation, etc. They are approved by the Director-General of Civil Aviation, Ministry of Civil Aviation, and Government of India to impart aircraft maintenance engineering courses. They are armed with skilled teachers and demanding courses in the aerospace and engineering field. They have their own aircraft, centralized academic council, instrument lab, classrooms, library, and hostel and mess facilities.

### **About Institute of Aeronautics & Engineering:**

Institute of Aeronautics & Engineering is one of the prestigious institutions that take special care of curriculum quality for producing graduates who are well informed, fully engaged, and future-centric. The academy provides a wide range of programs in aeronautical and aerospace engineering including aircraft maintenance engineering, a degree in aeronautical engineering, AME in addition to a degree in bachelor of technology, AME in addition to a degree in bachelor of computer application, and many others.
