

ITFX GROUP launched the ITGFX development strategy plan and entered the Asian market

Malaysian market leader PETER will be responsible for the entire Asian market

New York, New York City, Apr 18, 2021 ([IssueWire.com](https://www.IssueWire.com)) - As a high-tech company, ITFX GROUP INC has an algorithm system and advanced IT infrastructure providing large-scale development and various services. With the development prospects of the foreign exchange industry becoming more and more favored by investors, the company launched the ITGFX development strategy plan began to move towards internationalization, and now has an international foreign exchange business. Our team of experienced programmers has developed a lot of software for the foreign exchange market, CFD, and cryptocurrency market. The solution developed exclusively by our experts is combined with the current largest liquidity provider (quotation). It is designed for arbitrage trading and provides a complete solution for arbitrage of products such as foreign exchange, CFDs, and cryptocurrencies, allowing you to easily obtain Profit. ITFX GROUP INC is one of the few financial technology companies that directly connect to exchange data. Therefore, our customers can get the fastest, most reliable, and most accurate quotation. In addition to its own use, the solution has also become a trusted arbitrage trading tool for many large institutional traders. ITGFX's high-quality, reliable and outstanding customer service has created a good reputation. Due to our persistence in technical excellence, we are currently the most trustworthy foreign exchange company. ITGFX technical support includes commercial and non-profit organizations and customer groups all over the world. The persistent pursuit and attention to quality have allowed the company to achieve more than 15 years of continuous profitability, which is rare in this highly competitive industry. Relying on the professional background of the investment research team, unique and objective value concepts, and a mature and complete research system, a number of well-known overseas funds have been launched to assist high-net-worth clients to obtain stable returns, avoid the risk of RMB depreciation, and achieve global asset allocation. In order to comply with the strong market demand and development, in Southeast Asia, Malaysia set up an ITGFX operation center to serve the Southeast Asian market and operate the foreign exchange business. To fully expand the global market, ITGFX welcomes you to join us. We are committed to serving every high-quality partner and creating an industry benchmark.
