Pediatrics is a branch of medicine that involves the medical care of infants, children, and adolescents. The American Academy of Pediatrics recommends people be under pediatric care up to the age of 21. Pediatricians provide medical care to people ranging in age from newborns to young adults. They are trained to examine, diagnose, and treat children with a wide variety of injuries and illnesses through all of their developmental stages, as they grow and mature.

Sunflower selected Dr. DuPuis to recognize the extraordinary efforts he and his staff have made to deliver quality pediatric care and clinical excellence to Sunflower members. In particular, he received Sunflower's 2019 Summit Award for Excellence in Care for his quality measures of infant well-care visits, lead screenings, and recommended immunizations.

Outside the office, he enjoys photography, computers, art, bicycling, and hiking on vacations. Originally from Toledo, Ohio, he has made a home in Wichita with his wife, Ann.

Despite his weakness for carrot cake, Dr. DuPuis has run the Wichita half marathon 3 times. Before he was a physician, he was a mouse keeper in his college psychology department and cleaned hundreds of cages every week.
