

Kenneth Kremsky holds Extensive Training in Financial Analysis

This Press Release is written to inform the readers that Kenneth Kremsky holds extensive training in financial analysis.

Pennsylvania, Philadelphia, Apr 26, 2021 ([Issuewire.com](https://www.issuewire.com)) - An insight into the life of [Kenneth Kremsky](#), he has been a strategic financial executive who has been in the corporate and manufacturing field for more than two decades. He is highly aimed at helping organizations to reduce costs, thus realizing great productivity. After all, strengthening the workforce capabilities and cutting costs will enable the organizations to achieve cost-effective performance improvements, thus expecting a stronger return on investment.

Holding a solid experience of more than 22 years in corporate and field manufacturing, Ken holds a record of excellence in leveraging excellent strategies and finance best practices, and analytical ability. Kenneth is well-versed in improving profitability and driving long-term company growth by delivering financial analysis.

As a certified Lean Six Sigma Blackbelt, Kenneth holds extensive training in Lean Six Sigma costing and financial analysis, and generated loss allowance savings of ~\$700K over two years at Kraft Food Groups. Here, he served as Finance Lead and provided financial analysis for the Kraft Austerity team with the goal of reducing raw and packaging material losses by 5%, and reducing fixed expenses by 15%, which was achieved.

Pertaining to his education credentials, **Kenneth Kremsky** has a Bachelor's Degree in Accounting with a 3.8 GPA out of 4, from the Penn State University. He also holds a Master's Degree in Business Administration with a 3.9 GPA out of 4, from La Salle University. Currently working as a consultant for a private equity firm in Pennsylvania, he implements the new ERP accounting software and facilitates the A2R process for the acquisition of the company.
