Afro-Pop sensation, King Tri-Zi, takes center stage on Monday night to release his first official single "Softly". The boom play single (Instrumental) marked the beginning of an era for the Nigerian Singer & Songwriter.

"I'm psyched to be able to showcase a decade of writings in home town Lagos". "It's a sad time for me also, but at least I'm surrounded by friends and family, which has always been my source of strength," said King Tri-Zi.

King Tri-Zi, who began his career performing for free at local fraternity functions, was involved in his church choir and several local talent shows from a young age.

"Monday night I'm going to do my thing and then pass positive vibes, with no regrets", said King Tri-Zi. "It's been a great opportunity but now it's time to pull over and enjoy the good music y'all been longing for. I want to thank the fans for sticking with me all these years".
