

Kyzor Dahdah, DC, a Chiropractor with West Broward Wellness Center

Get to know Chiropractor Dr. Kyzor Dahdah, who serves patients in Tamarac, Florida.

New York, New York City, Apr 8, 2021 ([IssueWire.com](https://www.issuewire.com)) - Dr. Dahdah is a highly skilled and regarded chiropractor working alongside his wife, Dr. Teri Cohen-Dahdah, DC, DACBN at West Broward Wellness Center in Tamarac, Florida.

The doctor-duo founded the practice over three decades ago for the purpose of offering a safe, effective, and natural approach to optimal health using chiropractic medicine, nutrition, exercises, and stress reduction. They strive for excellence through superior patient treatment, education, and satisfaction.

Well respected in the medical community, Dr. Dahdah has been successfully treating patients for the last 30 years. He believes in treating the cause of a condition instead of the symptoms. While correcting spinal and extremities dysfunction, he advises proper diet and exercises as the foundation of an all-around human body.

A Fellow of the American Board of Disability Analysts, his professional affiliations include the Florida Chiropractic Association, the American Pain Society, the Broward County Chiropractic Association, and the Foundation of Chiropractic Education and Research.

Born and raised in Mayaguez, Puerto Rico, Dr. Dahdah attended the University of Puerto Rico where he received his Bachelor of Science degree with a major in Biology and served as a member of the Biology Honor Society. His career in chiropractic medicine began in 1986 when he graduated from the prestigious New York Chiropractic College with his Doctor of Chiropractic degree in 1990.

Specializing in injury rehabilitation and arthritic conditions, he has completed postgraduate programs in sports injury, neurology, medical-legal issues, as well as ergonomics, and industrial injuries. As an expert witness in personal injury (auto accidents) and work-related accidents, he manages many people who have been hurt in an accident in South Florida.

An active lecturer, Dr. Dahdah writes a health column in a local Spanish newspaper. He is also included in the Marquis' Who's Who in Leading Professionals and Executives, and the International Who's Who of Professionals.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain, back pain, headaches, vertigo, and a long list of other ailments and conditions. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself naturally, without the use of medication or surgery.

In his leisure time, Dr. Dahdah enjoys playing tennis and attending his children's activities.
