Who Created Millionaires Brain Academy?

This course has been created by **Winter Vee**, who went through a huge life crisis before his life became better.

His mother was ill with a disease that wasn't known and at the same time, it was untreatable. Tired of dealing with herself, she took her own life by ingesting a death pill. Alongside, he was stuck in a toxic relationship with truckloads of debt because of the wrong decisions that he made in his catering business.

After all that he was trapped in, he still took a job only to lose it on his 26th birthday which was two days before Christmas.

It doesn't end here, he also became an alcoholic and met with a near-death accident that put him in jail for several days.

Having suffered through such traumatic experiences, he started pondering on what could be the reason his life was so dull. And that's when he realized that the only thing that is keeping himself from succeeding is his own mind.

He realized how his thoughts and beliefs did not align with his true purpose. He had to break free from the cage he had formed around himself which was doing him more harm than good.

That is when he started discovering how the human brain works and processes information and discovered [Millionaires Brain Academy](#).

My Experience with Millionaires Brain Academy

I have been using Millionaires Brain Academy for 21-days now and I have a lot to say about the product.

Firstly, it really helped my brain to *relax and calm down* from all the anxiety I had been facing due to my finances. It helped me to be positive and hopeful and also made me think from a healthy perspective instead of being paranoid about my situation.

While I was doing this course, I was constantly working hard to look for ways to improve my wealth. I was on a hunt for a good job, looking to invest my money wisely and participating in lotteries.

When I started doing this course I realized that my mind was stopping me from achieving the success that I deserved. I constantly criticized and undervalued myself for my abilities and thought I don't deserve to make money.

But this course **completely transformed my mindset** and made me **more focused and determined** to strive towards my goals.

Very soon after I began with the sessions, I found a job that paid me well. Alongside which I started to invest my money in shares and got good returns. I was surprised to see the share prices increasing suddenly which were crashing earlier.

I also won a good amount in a lottery out of thousands of people and money just came to me in unexpected ways.

Not to forget, I also received a payment which was stuck for three months. It all just happened so quickly that I could not believe it at first. It was as if everything started to flow so easily in my life.
