United States, Arizona, Apr 20, 2021 ([Issuewire.com](https://www.Issuewire.com)) - myChurchDaily.com is a new tool for churches enabling them to have their message on Amazon's Daily Flash Briefing. One can simply record and upload their message using their friendly website and the message will be available every day on the respective church member's Alexa devices.

Today, over 30% of all US households have a Smart Speaker in their homes. Over 150 million Alexa devices have been sold to date. The church's daily message should be on every Amazon Alexa for convenience and maintenance of the community. The goal at myChurchDaily.com is to connect churches with their members every day to strengthen spiritual ties and offer encouragement. Flash Briefings also provide congregation members a focused time with the church and God every morning without distractions from social media and other media forms.

Just by creating an account, one can start their free trial of 14 days with myChurchDaily.com. There is no involvement of credit cards during the trial period. Upon signing up, you can immediately begin uploading messages and scheduling them on your private admin panel. Once church members add your Flash Briefing to their Alexa, they will be greeted every morning with your recorded message for the day. The opportunity lets community members connect directly with the church members in a brand new way. For a limited time, they are offering a special **introductory price of \$49 per month**.
