

Natalie Krasnyansky, DDS, a Dentist with Essential Dental of Roslyn & Galleria Dental Group, LLC

Get to know Dentist Dr. Natalie Krasnyansky, who serves patients in New York.

New York, New York City, Apr 27, 2021 ([IssueWire.com](http://www.IssueWire.com)) - Dr. Krasnyansky is a highly motivated, dependable, and enthusiastic, well-rounded professional who has a passion for dentistry and treats every patient with the utmost respect while restoring their teeth and a natural smile. She is the owner & operator of Essential Dental of Roslyn in Roslyn Heights, New York.

She and her staff provide gentle, family-oriented dental care to the adults and children of the community. In addition to general dentistry and cosmetic dentistry, they emphasize diagnostic dentistry, preventive dentistry, restorative dentistry, endodontics, periodontics, Clear Braces (Invisalign), pedodontics, oral surgery, implant dentistry, TMJ treatment, and others.

Following the Huggins Protocol for Mercury removal, Dr. Krasnyansky is also proficient in: cosmetic and restorative dentistry with a holistic approach, crown and bridge restorations, removable and fixed prosthodontics, oral surgery, implant restorations, and diagnosis and treatment of periodontal disease.

After graduating with her Bachelor of Arts degree in Biology from New York University, she went on to embark on her dental journey. She earned her Doctor of Dental Surgery degree from the New York University College of Dentistry in 2002.

Implant Certified, she is a professional member of the American Academy of General Dentistry, the American Dental Association, the Holistic Association of New York, the Academy of Cosmetic Dentistry, the New Jersey Dental Association, and the Monmouth County Dental Society.

Having dedicated over 12 years of her life to the field of dentistry, Dr. Krasnyansky has had the good fortune of working at a number of well-established and diverse practices in New York City and Long Island where she gained valuable insight and experience in all aspects of dentistry. For the past 13 years, she has applied a holistic approach to dentistry with the latest advances in materials, techniques, and treatment planning in an effort to provide superior dental services to those who demand nothing but the best in high quality and mercury-free dental care.

“My goal is to change the image of dentistry as it exists in the minds of some, particularly children and some adults, who live in dread of visits to the dentist’s chair. I believe that this “bad press” can be overcome with gentleness and honesty, and by treating children early on with the respect that every child and every adult deserves” expressed Dr. Krasnyansky.

After a long transition period, she completed a practice acquisition in 2008. Over the many years, she has been working closely with each and every patient attending to their immediate problems/concerns and formulating various treatment plans to address cosmetic and preventative needs using the holistic dentistry approach.

In addition to seeing patients at her private practice in New York City, Dr. Krasnyansky works alongside Dr. Ellen Katz at Galleria Dental Group, LLC in Manalapan, New Jersey. Striving to provide excellence in the field of dentistry, the dental-duo have been perfecting their technique and gaining valuable experience working at diverse practices in the Tri-State area.

Take pride in offering “dentistry for the quality conscious”, Drs. Krasnyansky and Katz sincerely care for

their patients with the same quality and consideration they would want for themselves. They offer individualized care to help patients and their families set realistic goals and customize plans around their specific needs and budget.

Education remains a vital component of their continued success as dentists. They strongly believe that one of the best ways to provide “state-of-the-art” dental care is to continue educating themselves as well as the communities in which they serve. They stay abreast on the latest technological and procedural advancements in dentistry by taking continuing education courses on a regular basis, but they also realize that their role in the community is a critical one, touching the lives of those in need, standing ready to educate and comfort their patients in efforts to change the minds who live dreading visits to the dentist’s chair.

“I can’t speak on behalf of the other dentists, but I truly love what I do day in and day out. After all these years, I continue to derive a sense of personal achievement and well-being from my daily efforts and helping people smile with pride. I have come to see dentistry as a fulfilling and enviable pursuit, generating benefits for everyone, making it a “win-win” situation for me and my patients” stated Dr. Krasnyansky.

She attributes her success to her love for dentistry and her passion for performing an artistic and holistic approach to dentistry.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy.

Outside of practicing dentistry, Dr. Krasnyansky enjoys spending time with her family, traveling, playing tennis with the family, and going to her childrens’ national tennis competitions. Her favorite professional publications are the Dental Economics Journal and the Journal of Cosmetic Dentistry.
